- Software Engineer

Apply Now

Company: Turbot Enterprise

Location: Australia

Category: other-general

Locations: Australia, India, United Kingdom, United States;100% remote Learn with the best - Collaborate closely with a small team of world-class engineers. Leave your ego at the door - Our top engineers do architecture, coding, and bug fixing. Uncap your potential - Your personal growth is our priority, see how far you can go! To learn more about what it's like to be a part of the Turbot team, please visithere ! Responsibilities As a Software Engineer, you will be a Cloud, DevOps, and Turbot subject-matter expert delivering highly scalable, reliable, and elegant software for the cloud. Responsibilities will span;
Hands-on development of our Turbot and/or Steampipe products. Leading a technical work stream within the broader Product team's quarterly cadence cycles. Building products that are simple for customers to adopt and use. Working with customers to solve problems; whether by providing awareness of functionality, resolving issues, or delivering enhancements and new features. Within a team; developing for, supporting, and maintaining a 24/7 production environment. Who You Are Expert in multiple software domains (but know enough to know that you don't know it all). An engineer who can recognize and resolve key trade-off decisions in design and execution. Passionate and focused on the end-to-end customer experience. A collaborator who enjoys working as part of a global team. Someone with a strong delivery mindset who likes to get work done. Enthusiastic and proactive, with a proven ability to solve problems. Understanding of well-architected cloud architecture and distributed systems. Experience with operational processes (supporting customers on a product/service). 7+ years of programming experience. 4-year degree in Information Technology, Computer Science, Computer Engineering, or Electronics and

Communication Engineering (viewed favorably). Excellent communication skills with a range of stakeholders, and a video-conferencing natural.

#LI-DNI

Which development tool can't you live without, and why should we use it at Turbot?* Are you comfortable working in a fully remote setting?*

Do you have a minimum of seven years of experience of programming experience?*

Are you willing to undergo a background check, in accordance with local law/regulations?*
