Company: McGregor Gourlay

Location: Australia

Category: other-general

McGregor Gourlay Agricultural Services is one of the most dynamic privately owned rural services companies in Australia, employing over 150 staff across 17 branches located across North West NSW, the NSW Northern Rivers, the Darling Downs and the South West QLD Border Regions serving the townships and surrounding areas. We offer a highly customer focused approach with our team working closely with our clients, whilst partnering with leading service providers. We offer a wide range of services to our customers and specialising in chemical, fertiliser, seed, agronomy services, rural merchandise, livestock, property, and water equipment, to ensure customers have what they need, when they need it. With a history of over 125 years of service, the McGregor Gourlay Agricultural Services team is at the forefront of agriculture, with an outstanding level of experience across a wide range of cropping environments, to assist our customers pioneer production into new areas across the region and maximise the potential of their cropping and livestock operations.

**Job Description**

McGregor Gourlay is seeking an experienced and dedicated Agronomist to join our team in the Goondiwindi and/or Meandarra Areas. As an integral part of our Agronomy team, the successful candidate will play a key role in providing expert agricultural advice and support to our clients while supporting the business' growth in the South West QLD Border Region. This is a full-time position offering the opportunity to make a significant impact in the field of agronomy. The main responsibilities of the Agronomist include:

- Conducting on-site visits to assess crop health and provide tailored recommendations to maximise yield and quality.
- Developing and implementing effective crop rotation and management plans.
- Providing tailored recommendations to clients regarding crop management, fertilisers, and insect

and weed control. Working closely with growers on the management of Technology User Agreements (TUA's). Building strong relationships with clients by delivering exceptional customer service and maintaining regular communication. Staying up-to-date with industry trends, research findings, and best practices to continuously enhance agronomic expertise.

**Desired Skills and Experience** The ideal candidate will possess: A degree in Agronomy, Agriculture Science or related field. Demonstrated experience in providing agronomic advice within the agricultural sector. An in-depth understanding of local cropping systems, soil types, and climatic conditions. Strong analytical skills with the ability to interpret data and make informed recommendations. Excellent communication skills with the ability to build rapport with clients from diverse backgrounds. A proactive approach to problem-solving and a keen interest in driving sustainable farming practices. Proficiency in using agronomy software and tools. Ability to work independently and as part of a team. Full driving licence and willingness to travel as required. If you are passionate about agriculture and have a desire to contribute positively to the success of our clients' operations, we encourage you to apply for this rewarding opportunity as an Agronomist at McGregor Gourlay. Join us in making a difference in Australian agriculture. Note: recruitment for Trainee and Graduate Agronomist's opens 1st July 2024
