

Azure cloud Engineer

[Apply Now](#)

Company: Green Light

Location: Australia

Category: computer-and-mathematical

Role: Azure cloud Engineer

Security clearance: Baseline

Location: Canberra

Engagement: Contract/Permanent

Hybrid work Arrangements

Green Light is seeking Experienced engineer with both administration and development experience in Azure cloud infrastructure. The role centres around build and maintenance of a data analytics platform with a particular focus on automation, where you will join a team of experienced data platform administrators, engineers and developers. The successful candidate will play a key role in the modernisation of an on-premises data platform to Azure.

Duties will include:

Build and automate processes using DevOps pipelines, PowerShell, and Azure Function Apps

Maintain and enhance cloud analytics platform functionality for ETL developers and data engineers to perform their roles while working with cutting edge technology

Migrate and modernize processes from an on-premises platform to a cloud-native platform

Ongoing administration of the cloud data analytics platform, maintaining availability and troubleshooting operational issues.

Does this role sound like something which you would be interested in discussing further?

Then feel free to give me a buzz on **0402430973** or flick your resume at
