

Bioinformatician -Galaxy Outreach Specialist

[Apply Now](#)

Company: University Of Melbourne

Location: Melbourne

Category: other-general

About the RoleThe role at Melbourne Bioinformatics focuses on supporting life science researchers in utilising Galaxy Australia within the Parkville Precinct. This involves developing and delivering training materials, publicizing Galaxy Australia, collaborating with researchers to develop workflows, and contributing to building the Galaxy Australia toolshed. The incumbent will work closely with Precinct stakeholders, national colleagues, and the broader Galaxy community to ensure effective utilisation of digital infrastructure and to facilitate research advancements in the life sciences. Your responsibilities will include: Develop a thorough understanding of significant software development and deployment projects and methodologies in support of Galaxy Australia. Contribute to building the Galaxy Australia Tool Shed. Engage with key stakeholders from associated research teams across universities, research institutes and hospitals. Engage with key stakeholders from associated computational infrastructure providers Who We Are Looking For You will excel in this role if you are personable and enjoy engaging with people, particularly in teaching and passing on knowledge. Your outstanding communication and interpersonal skills, along with your ability to build and maintain relationships with various stakeholders, will enable successful collaboration and engagement both internally and externally. You will also have: PhD in a relevant discipline or equivalent experience. Extensive experience as a practising bioinformatician, including significant experience with method and tool development, and data analyses Extensive experience in training documentation and teaching in a complex informatics environment such as a research institute, clinical setting, or a research support facility, working on major research and/or clinical projects. Demonstrated ability to develop

clear, accurate and useful administrator, developer and user and training documentation and to be able to interact with and provide advice to users. A commitment to develop, produce and implement documentation which adheres to principles of Human Centred Design for Research as implemented by the University of Melbourne's Research Gateway. For further information regarding responsibilities and requirements, please refer to the attached PD. Please note: Visa sponsorship is not available for this position. This role requires current valid work rights for Australia.

Your New Team – Melbourne Bioinformatics Melbourne Bioinformatics, nestled within the vibrant hub of Australia's life sciences, empowers researchers with cutting-edge tools and expertise. From software development to bioinformatics training, it accelerates scientific discovery and fosters collaboration. Since its inception, Melbourne Bioinformatics has propelled Victoria to the forefront of life sciences, generating impactful insights that benefit health, agriculture, and engineering, enriching both academia and industry alike.

What We Offer You! In addition, we offer the opportunity to be part of a vibrant community and enjoy a range of benefits, including generous leave provisions, salary packaging, health and well-being services and discounts on graduate courses. For more information, check out our [benefits page](#)!

About the University of Melbourne We're tightly connected with the community, both at home and abroad. We take pride in our people, who all contribute to our mission to benefit society through the transformative impact of education and research. Discover more via our website and stay connected with our stories and people on LinkedIn. We are dedicated to ensuring barrier free and inclusive practices to recruit the most talented candidates. If you require reasonable adjustments, please contact Kim Groizard at [kim.groizard@unimelb.edu.au](#), with an email containing your name and contact details for a confidential discussion. Please ensure your email is titled Reasonable Adjustments Request.

Aboriginal and Torres Strait Islander Applicants We aspire to be the University of choice for Indigenous Australians, with unprecedented investment to attract, nurture and retain Aboriginal and Torres Strait Islander students and staff. Tangible support through a range of programs and initiatives will ensure that you personally succeed and flourish while at the University of Melbourne.
