Job Description

Hitachi Rail is looking for an enthusiastic self-motivated Civil Construction Supervisor who thrives in a fast-paced environment. The successful candidate is comfortable performing a wide range of tasks from administrative to strategic. The position is based in Brisbane, Australia.

Who We Are

Hitachi Rail is a fully integrated, global provider of rail solutions across rolling stock, signalling, service & maintenance, digital technology and turnkey. With a presence in 38 countries across three continents and over 14,000 employees, our mission is to contribute to society through the continuous development of superior rail transport solutions.

The key accountabilities of the role include but are not limited to:

Plan, lead, and oversee construction activities based on signalling and functional

documentation.

Manage the Civil Construction team and subcontractors for ETCS L2 project delivery and coordinate all construction site activities according to the project plan.

Manage the ITP Process and ensure ITP's are signed off by stakeholders in a timely manner.

Optimize project resources, both internal and external, to meet milestones and deliverables.

Collaborate with the HSE team to define site safety requirements and implement HSE initiatives in compliance with regulations.

Ensure HSE compliance, defining site safety requirements, and implementing initiatives.

Provide regular progress reports on construction activities and resource performance evaluations.

Education and experience:

5+ years in civil supervision in a rail and civil construction environment

Construction White Card

Ability to read and interpret construction drawings.

Current Class A Drivers License

Experience in concrete and foundation works.

Demonstrated competency in implementing Health & Safety initiatives.

Outstanding planning and organisational skills.

Demonstrated experience working within a brownfield railway signalling environment.

Knowledge of software tools and technical systems.
