

Clinical And Technical Expert - Orthopaedic Surgeries

[Apply Now](#)

Company: Tresp Recruitment

Location: Australia

Category: other-general

Build a rewarding career in the life-changing Orthopaedic technology space

You will need to show regular success in your career to date

You can start in a capital city and move regional for opportunity of a lifetime!

Are you an overachieving person looking to break into a technically and clinically rewarding space?

Our client is offering an opportunity to kickstart your career in the exciting MedTech industry as part of a possible mentorship scenario. Through this, you'll receive comprehensive training and mentorship to gain invaluable industry insights and experience and hone your skills to thrive in a global leader in Medical Technology. You will start in a capital city then relocate to a regional area of Australia to be the expert in Robotic-assisted Orthopaedic surgeries.

Candidates from Engineering; Small business owner/operators; Allied Health professionals with strong business acumen - all encouraged to apply.

THE COMPANY:

Our client is one of the world's leading MedTech companies dedicated to revolutionising healthcare solutions, offering cutting-edge advancements in orthopaedics, medical and surgical technology, neurotechnology, and spine. Leverage your potential with an award-winning organisation, where excellence meets innovation and significant career progression opportunities. Voted as one of the best companies to work for locally and globally, this

business is a true employer of choice.

CULTURE AND BENEFITS:

Competitive earnings package (Base salary + car allowance + bonuses + super)

Embrace a supportive culture with many benefits including paid parental leave from day 1 and access to tuition reimbursement and wellness programs

A business committed to diversity, equity, and inclusion

Be acknowledged and rewarded for your exceptional performance.

Benefit from comprehensive training programs, mentorship and opportunities for career progression locally and globally

An unrivalled benefits package including Salary Continuance, Life Insurance, Employee Assistance Program and discounted health premiums with partner companies

THE ROLE:

Support a diverse range of orthopaedic joint replacement implants and technology within the hospital environment including robotics

Train in a major city, then you will be assigned to a regional territory, giving you the autonomy to drive product utilisation and make a real impact

Support surgeons during orthopaedic procedures, and be trained in cutting-edge robotic-assisted surgeries

Manage your surgeons strategically, tracking your progress in coordination with your Team Leaders and other senior members of the business

Develop and nurture relationships with surgeons, operating theatre teams, and hospital staff

Inventory management and coordination with internal and hospital support teams

ABOUT YOU:

Demonstrated track record of success in all that you do

Exhibit technical acumen to understand and convey complex information to a range of customers

A talent for building and maintaining relationships

A real want to deliver outstanding service

Exceptional account management

Ability to make decisions under high-pressure situations

Can work outside standard business hours

Organisational skills and attention to detail

Passion in human anatomy and physiology

Willingness to relocate regionally post-training and mentorship

If the above resonates with you, contact **Jasmine** at **+61 483 922**

756 or orjasmine@tresp.com.au. We encourage you to call and ask questions to understand suitability.

To Apply, simply click through and submit a copy of your CV, outlining your key achievements and responsibilities. All applications will be treated with the utmost confidentiality.
