MUST BE LIVING IN AUSTRALIA TO APPLY

CAM Engineer - Programmer with MasterCam skills and 5 Axis cnc machine knowledge is needed for an immediate start.

A progressive engineering company is seeking an experienced, Cam engineer programmer with the ability to programme 5 Axis CNC machining centres to do high precision work.

This company genuinely sees its people as core to their success and aims to create rich and diverse career paths for employees with rewards for dedication, hard work and results.

They specialise in precision machining of complex engineering parts all using special hard materials. Your role will involve using Master Cam to program and set Vertical and Horizontal machine centres that use Okuma IGF control.

This is an excellent company to work for, they have been in operation for over 35 years and are known for producing outstanding work and offering excellent conditions they also have some of the latest technology in CNC.

To be considered for this role you must have:

Experience in Master Cam.

Experience with 5 Axis machines.

Trade or Engineering qualifications.

Australian citizenship A MUST.

The successful candidate will be offered a permanent fulltime position with an excellent pay rate.
