

## Cyber Analyst

[Apply Now](#)

Company: Quay Appointments

Location: Australia

Category: other-general

Join a Cyber Security Team at a Federal Government Department! Are you ready to step into a dynamic role where your expertise in cyber security can shine? This Federal Government Department's Cyber Engagement section is expanding and are on the lookout for skilled Cyber Analysts to join the team based in Canberra. Requirements: Experience: A minimum of 5 years conducting security risk assessments in Azure Cloud, Legacy ICT systems, and applications within a Governance Risk and Compliance role. Expertise: Proficiency in reviewing and advising on application and system designs related to PSPF, ISM, and Essential Eight. Communication: Ability to liaise effectively with both non-technical and technical stakeholders on cyber security matters, presenting findings to senior executive audiences. Innovative Thinking: Identify opportunities to enhance the department's security posture. Skills and Capability: Problem-Solving: Ability to troubleshoot and resolve complex issues efficiently. Judgement: Exhibit sound judgement and perform effectively under pressure, delivering high-quality outcomes with minimal supervision. Workload Management: Capable of managing a substantial workload effectively. Relationship Building: Develop strong, productive relationships and possess excellent communication skills for issue resolution. Presentation: Confidently craft and deliver security artifacts to senior audiences.

Details: Estimated Start Date: Monday, 01 July 2024 Contract Duration: Initial 12 Months, with potential for extension up to 24 months Location: Canberra, ACT Working Arrangements: Primarily Canberra-based, with flexibility for 1 to 2 days of remote work per week. Security Clearance: Must be able to obtain Negative Vetting Level 1 clearance. If you're passionate about cyber security and ready to make an impact in a high-performing team, we want to

hear from you! Apply now to join our exciting journey in safeguarding critical digital assets and infrastructure.
