

D365 CE Developer

[Apply Now](#)

Company: Dynamo Recruitment

Location: Australia

Category: computer-and-mathematical

48mth Contract role To be based in **ACT or VIC** Must be **Australian Citizen** Ideally with Baseline or NV1 but Citizen alone is OK.

Fed gov dept requires the services of two Power Platform Developers who has extensive knowledge and experience in MS Dynamics 365 CRM, Power Apps / Model Driven Apps and Power Pages (including configuration, customisation and security) in an agile development working environment. The Dynamics 365 Developer will contribute to the design, development, delivery and support of Power Platform applications and help ensure continuous improvements, best practices, and high-quality service to business and end users.

The ideal candidate will join a supportive and collaborative team to create technical solutions to business issues, utilising the full range of collaboration, development, CI/CD, and source control

Microsoft tools both on-premise and in the cloud. The developer should be capable of creating custom cloud-native applications while also having the confidence to suggest repeatable low-code solutions.

The successful candidate will be a professional that is self-driven, has initiative, can contribute to the analysis, design, planning, development, delivery and support of applications.

1. Excellent communication and problem-solving skills with a demonstrated ability to communicate persuasively in both written and verbal communication.
2. Good experience in developing Dynamics 365 Plug-ins, JavaScript's, PCF controls, Logic Apps, Custom workflows , Power Automate, Dataflows
3. Experienced in developing Canvas & Model Driven Apps, Power App Portals
4. Demonstrated experience in Microsoft's .NET Framework (C#), Visual studio, HTML, CSS, JQuery, SSRS Reporting, Power BI, FetchXML and Web API
5. Experience using Azure DevOps and CI/CD
6. Exposure working with Azure Cloud Technologies
7. Experience in working & integrating with Microsoft 365 SharePoint platform
8. Experience in ITIL Processes, Agile/SCRUM development methodology

Apply for more details!
