Data Engineer

[Apply Now](#)

Company: Zone IT Solutions

Location: Sydney

Category: other-general

We are looking for Data Engineer for Sydney location for a large-scale project. This is a permanent role with a global IT service leader. Key responsibilities:

- Designing, building and maintaining data architectures, including databases and processing systems;
- Acquiring and integrating new data sources;
- Optimising data pipelines, automating processes where possible and planning for scalability;
- Developing methods for identifying issues in data quality, reliability and efficiency;
- Applying appropriate security controls to all relevant collections, databases and systems;
- Maintaining documentation relating to the design and maintenance of data systems; and
- Creating and maintaining the infrastructure and analytic tools to allow for efficient data extraction and transformation.

Key skills and qualifications:

- Degree qualified in data science, computer science, statistics, information systems, or related disciplines;
- Extensive experience with SQL, Python and R;
- Experience or familiarity with Airflow, Spark, Hadoop, and PostgreSQL;
- Experience with data modelling and ETL tools;
- An understanding or interest in data science or analytics would be advantageous
