About Accenture

Accenture is a global professional services company with leading capabilities in digital, cloud and security. Find out more about us at www.accenture.com.

What you'll do

As a DevOps Engineer, you will provide input into designs, contribute to installation and testing of automation tooling, including Ansible AWX, Terraform Enterprise, and Azure DevOps, and their integrations and use across AWS, Azure, and on-premises. Working closely with development, operations, and other cross-functional teams, you will lead efforts to automate processes, optimize workflows, and enhance the reliability and scalability of systems.

Key responsibilities

Design and Installation: Implement Ansible AWX for enterprise-wide workflow management, orchestration, configuration management, and automation. Operationalize Terraform Enterprise to handle the scale and complexity of enterprise infrastructure environments. Leverage Packer as image management software.

Integration and Testing: Establish integrations for Ansible AWX, Terraform Enterprise with ServiceNow and Azure DevOps integrations with Packer, IaC linting tools, policy as code, and other DevOps tools. Oversee thorough testing of established

integrations.

Documentation and Handover: Create user stories based on the high-level design. Prepare and handover related documentation and operating procedures.

Security and Compliance: Ensure installations comply with the organization's security controls with Role-Based Access Control (RBAC). Provide security and operational visibility via integrations into the organization's enterprise monitoring and alerting platform.

Here's what you need

Terraform Opensource: Proficiency in using Terraform Opensource for Infrastructure as Code (IaC) is essential

Ansible: Extensive experience with Ansible, including the creation of playbooks and roles

Infrastructure Virtualization and Networking: Strong skillset in infrastructure virtualization and networking

Azure DevOps: Experience with Azure DevOps or equivalent, including integration with code security scanning and test automation tools

At least a baseline clearance if not NV1

Bachelor's degree in computer science, Information Technology, or a related field, or equivalent experience

Proven ability to work in a team-oriented environment

Strong problem-solving skills and attention to detail

Excellent written and verbal communication skills

Ability to manage multiple tasks and projects simultaneously

Familiarity with Agile methodologies and principles

Bonus points if with

Terraform Enterprise: Experience with Terraform Enterprise is highly desirable

Ansible AWX: Experience with the installation and integration of Ansible AWX

Active Directory: Work experience with Active Directory

RBAC: Experience in RBAC design and policy management

HashiCorp Packer & Sentinel: Experience with HashiCorp Packer and Sentinel (Policy as Code)

Benefits of working at Accenture:

Equal Employment Opportunity Statement for Australia:

At Accenture, we recognize that our people are multi-dimensional, and we create a work environment where all people feel like they can bring their authentic selves to work, every day.

Our unwavering commitment to inclusion and diversity unleashes innovation and creates a culture where everyone feels they have equal opportunity. Our range of progressive policies support flexibility in 'where', 'when' and 'how' our people work to ensure that Accenture is an organisation where you can strive for more, achieve great things and maintain the balance and wellbeing you need.

We encourage applications from all people, and we are committed to removing barriers to the recruitment process and employee lifecycle. All employment decisions shall be made without regard to age, disability status, ethnicity, gender, gender identity or expression, religion or sexual orientation and we do not tolerate discrimination. If you require adjustments to the recruitment process or have a preferred communication method, please email exectalent@accenture.com and cite the relevant Job Number, or contact us on +61 2 9005 5000.

To ensure our workplace is inclusive and diverse we are setting bold goals and taking comprehensive action. To achieve these goals, we collect information that allows us to track the effectiveness of our Inclusion and Diversity programs. Learn how Accenture protects your personal data and know your rights in relation to your personal data. Read more about our Privacy Statement.
