Tanami, Katherine & Northern Australia NT Mining - Drill & Blast (Mining, Resources & Energy) At Newmont, our purpose is to create value and improve lives through sustainable and responsible mining. One of the largest gold companies in the world, we pride ourselves on our dedication to safety, environmental management, inclusion and diversity, and adding value and opportunity to our host communities. Newmont Tanami is on Aboriginal freehold land 540km northwest of Alice Springs. It is a long-life, low-cost, world-class asset in a core Newmont region. The Tanami Expansion 2 project, aims to extend the mine life beyond 2040, investing in a hoisting shaft which will increase the production of the underground mine from 2.6 Mtpa to 3.2 Mtpa. Both the successful exploration within the underground operation and implementation of the first Tanami Expansion has laid the foundation to further develop the operation to remain a major contributor to the Newmont portfolio. A fully equipped camp is located 40km from the site offering leisure facilities for those flying in from Perth, Brisbane, Alice Springs or Darwin. The Opportunity: Reporting to the Senior Production Engineer, the Drill and Blast Engineer is responsible for Stope designs, Stope File Notes and Drill and Blast designs. You will be responsible for safe extraction of Ore from Underground and implementation of production plans in line with planning targets. The core business function is to deliver the mine design in accordance with the business plan. The role is based in Tanami and offers a FIFO roster from Perth, Brisbane, Darwin & Alice Springs. Duties include but are not limited to: Work closely with the site based technical services team and operations to deliver drill and blast designs for a large UG gold mine (>2.7Mtpa) Co-ordinate and manage an underground production fleet including two

raisebores, three longhole rigs and three charge vehicles Monitor drill and blast practices underground, liaising with production drillers and production charging personnel to identify production issues and compliance to standards Work closely with the operational supervisors and production schedulers to ensure daily, weekly and monthly targets are achieved Manage and supervise drill and blast business partners Work with technical team and operations to optimise production performance Co-ordinate drill and blast activities alongside the ventilation, backfill & geotech departments About You: Bachelor degree in Mining Engineering or equivalent Experience in an underground environment Excellent communicator and team player A good understanding of longhole stoping methods Deswik experience is desirable but not necessary Underground time completed is desirable but not necessary Closing Date: Applications close on Sunday March 31, 2024 . Shortlisting may commence prior to close. We understand no candidate will meet every single desired qualification. If your experience looks a little different from what we've identified and you think you can bring value to the role, we'd love to learn more about you! Our business success comes from the accomplishments and well-being of our employees and contractors. Our goal is to build a workplace culture that allows every person to thrive, participate, grow, and proudly play an active role in achieving our strategy. Newmont is an Equal Opportunity Employer. We are committed to recruiting, hiring, placing and promoting the best individual for each position without regard to personal characteristics such as gender, race, nationality, ethnicity, social and indigenous origin, religion or belief, disability, age, sexual orientation, etc. We invite women and applicants with diverse backgrounds to apply, particularly persons of Aboriginal and Torres Strait Island descent. Newmont acknowledges Aboriginal people as the first Australians and respects their unique relationship with the land and sea, their culture, spiritual tradition and stories. More About Newmont Website: <http://www.newmont.com> Lifecycle of a Mine: <https://www.newmont.com/lifecycle-of-a-mine/> Blog: <https://www.newmont.com/blog-stories/> Annual sustainability report: <https://www.newmont.com/sustainability/sustainability-reporting/> Consistent with Newmont's values of safety and responsibility, we believe that COVID-19 vaccination, as well as other vaccinations that are required or recommended for entry into certain Newmont operating countries, protect the health and safety of Newmont's workforce and the communities in which we work and live. As a result, please note that Newmont requires up-to-date COVID-19 vaccination for any international travel by the workforce undertaken on behalf of the company. In addition, other vaccinations (e.g., yellow fever vaccine) may be required for

international travel to certain Newmont operating countries. Newmont will consider individual requests for exemption/reasonable accommodation by applicants who cannot be fully vaccinated due to medical reasons or other grounds protected by applicable human rights law. Newmont may update its vaccination policies/requirements at any time in its sole discretion. Note: Newmont does not ask individuals to pay money to apply or be considered for employment or to provide sensitive personal data without first submitting a job application through our secure, online portal. If you are asked to do either, do not respond and please report this immediately to (email protected) . Report this job advert Don't provide your bank or credit card details when applying for jobs. Choose from thousands of courses delivered by leaders in education. #J-18808-Ljbfrr
