South East Asia on your doorstep. Spend a weekend in Bali (only a 3hr flight) or Singapore (4hrs).

Salary \$97,432 - \$103,336 AUD per annum (depending on experience)

12 month contract

The Hospital

Royal Darwin Hospital (RDH) is a 345 bed tertiary hospital that serves a population of over 142,000 in a catchment including urban communities, regional hospitals and remote Aboriginal communities. The hospital provides a broad range of referral services in all specialty areas to the Darwin urban population as well as serving the Top End of the NT, Western Australia and South-East Asia. RDH is the largest teaching hospital in the NT and is also recognised as Australia's National Critical Care and Trauma Response Centre (NCCTRC). Palmerston Regional Hospital is a satellite campus providing lower acuity elective surgical services.

You will work as part of a team which includes 38 Emergency Medicine Consultants, 38 Registrars and 22 SHO's. This is a great opportunity to join an established team with an emphasis on educational and professional development including ward rounds and journal clubs with the opportunity to gain exposure to indigenous health, unique retrieval presentations, jelly fish stings and snake bites.

The Location

Darwin is a place of sunshine, beaches and a vibrant nightlife. Darwin offers tropical weather, rich indigenous culture, national parks and a laid-back lifestyle. Darwin is the Northern Territory's multi-cultural capital, famed for its markets and festivals, Asian cuisine and massive natural harbour. It is also the perfect base from which to explore the natural treasures of World Heritage-listed Kakadu and Litchfield National Parks as well as the Tiwi Islands.

What Head Medical can do for you

Arranging a position overseas is very exciting, but we understand that it can also be daunting and time consuming. We're the UK's specialist in international medical recruitment and we've helped many Doctors relocate since we first started out in 2008 (you can read what people have said about working with us on our testimonials page). We know it's important to balance career opportunities with lifestyle and we'll talk through your plans and will get to know you to make sure we find the right role in the right location. Once we have secured a job for you, we'll manage the Medical Registration and Visa application process, and support you (and your family) with the relocation itself.
