

EOI - Water Infrastructure Engineers

[Apply Now](#)

Company: WSP

Location: Adelaide

Category: architecture-and-engineering

Join our team of intelligent and collaborative Changemakers in SA and help us shape the future!

2024 is a pivotal year for the Water Business Group, with a robust pipeline of work driving our ambitious growth plans for the national team. We currently have multiple opportunities, ranging from experienced engineers to technical leadership roles, in our Adelaide office. These roles support our Water Utilities, Water and Wastewater Treatment, and/or Asset Management & Planning (AMP) teams.

We are involved in some of Australia's industry leading water programs and clients including:

Logan Water Partnership, Logan City Council

Wastewater Regional Program and Water Southern Zones Programs, Urban Utilities

Capital Delivery Office (CDO), TasWater

Gold Coast PSP

Delivering 4 Customers, Sydney Water

SA Water Engineering Panel

Opportunities

Digital Engineering Lead

Design Manager / Associate Design Manager

Senior/Associate/Principal Mechanical Engineer, Water Utilities

Senior/Associate/Principal Structural Engineer, Water Utilities

Senior/Associate/Principal Electrical Engineer, Water Utilities

Associate/Principal Civil Engineer, Water Treatment

Associate/Principal Process Engineer (Desalination or Treatment Planning), Water Treatment

Senior/Associate Sewer Planning Engineer, Asset Management & Planning

About you

Bachelor's Degree or equivalent qualification in Civil, Environmental, Electrical, Mechanical or Chemical Engineering

CPEng; or working towards (RPEQ an advantage)

Experience in the Australian water industry with water utilities, treatment and/or water modelling experience essential;

Technical skills across a broad range of areas in the water sector

Ability to break down complex problems, develop cohesive strategic responses, and then present to stakeholders to come to an agreement on a preferred way forward;

Demonstrated experience 'thinking outside the box' and challenging the status quo;

Identify strategic risks, situations where these risks may become problematic during project delivery and inform the project team.

Interest in the environmental, sustainability and social impacts of our work and ability to take this into account when developing decision making processes.

Experience in the application of modelling software and/or analytics techniques.

About WSP

WSP is one of the world's leading engineering professional services consulting firms, bringing together approximately 5,000 talented people across 14 offices in Australia. We are

technical experts who design and provide strategic advice on sustainable solutions and engineer Future Ready™ projects that will help societies grow for lifetimes to come. wsp.com/au

Our vibrant workplace culture is an important part of what makes this a great place to work.

It is supported by our Guiding Principles:

- We value our people and our reputation.
- We are locally dedicated with international scale.
- We are future focused and challenge the status quo.
- We foster collaboration in everything we do.
- We have an empowering culture and hold ourselves accountable.

WSP prioritises the health and wellbeing of our people by offering flexible working, 12 months parental leave, opportunities for global mobility, purchased additional leave, and competitive remuneration among many more benefits designed to help you shine. We are committed to providing an inclusive, diverse and equal opportunity workplace. We promote Indigenous voices and are actively delivering a 'Stretch' level Reconciliation Action Plan. Accredited by the Workplace Gender Equality Agency as an Employer of Choice, we also support the LGBTQI+ community, and encourage all employees to bring their whole selves to work.

Think this could be the opportunity for you? Apply now to begin your journey with WSP.
