Expression of Interest – Building Services Engineers Newcastle, New South Wales 2300, Australia • Full-time Description Marline Newcastle Pty Ltd is a multi-disciplined building services engineering consultancy firm with over 40 years of experience. We deliver projects across the health, retail, residential, education, commercial, aged care, and leisure sectors all over East Coast with expertise in electrical, mechanical, hydraulic, fire and stormwater engineering and environment-sustainable building services design. We have developed and earned a strong reputation within the wider Newcastle region and this reputation now precedes us throughout New South Wales and beyond. If you are a motivated and collaborative individual and see yourself as a part of our great team, we would love to hear from you! If you are a: Mechanical Engineer Mechanical Engineer (Hydraulic and Fire Systems) Hydraulic Engineer Electrical Engineer -- let us know! Our engineers are responsible for providing design and engineering solutions for a wide range of projects across various sectors including health, retail, residential, education, commercial, aged care, and leisure – we work closely with other engineers and designers, project managers and clients to deliver high-quality outcomes. Our opportunities come with following key responsibilities for engineers: Develop project plans, timelines, and budgets for a range of projects Prepare engineering reports, specifications, and drawings Liaise with clients, architects, builders, and other stakeholders to understand project requirements and provide engineering advice Conduct site inspections and support the installation and commissioning of building services systems Provide technical support to project managers and other team members Ensure compliance with relevant regulations, standards,

and guidelines. And to be successful in an engineering role, you would have: Tertiary qualifications in (Mechanical, Hydraulic, Electrical) Engineering or equivalent.

Demonstrated experience in building services engineering design and project delivery, preferably across a range of sectors. Strong technical knowledge of electrical, mechanical, and hydraulic systems and design principles. Experience with relevant design software such as AutoCAD, Revit, and relevant design/modelling/simulation software. Ability to work effectively as part of a team and independently. Strong communication skills, both verbal and written. Ability to manage multiple projects simultaneously and meet deadlines.

Demonstrated attention to detail and ability to produce high-quality work. Knowledge of sustainable building design principles would be advantageous. Submit your application online, fill in your details, and attach your resume and a cover letter addressing each of the selection criteria listed. Once applied, our HR platform (Employment Hero) will forward you an email with a link to provide further information - we invite you to have this completed at your earliest. Once all is completed, we will get in touch with you! Role Type Company Overview Join Marline Newcastle - a multi-disciplined building design and engineering consultancy firm with a focus on high levels of customer service and production of quality engineering designs. #J-18808-Ljbffr
