

## Group General Manager - Application Reuse Platform

[Apply Now](#)

Company: TechnologyOne

Location: Brisbane

Category: other-general

Management (Information & Communication Technology)

As the Group General Manager - Application Reuse Platform, you will be a strategic leader, responsible for overseeing TechnologyOne's Application Reuse Platform portfolio. In this role you will provide visionary guidance, technical expertise, and effective management to drive the growth, innovation, and reliability of TechnologyOne's enterprise platform offerings. As a hands-on infrastructure and software executive, you will lead Platform teams to build awesome, quality software that customers love, to budget and on time. What you'll be doing...

Developing the Application Platform Reuse strategy to effectively manage

TechnologyOne's Platform portfolio to reach market share and profit targets.

Taking accountability for the successful development, delivery and execution of

TechnologyOne Application Reuse Platform group services roadmaps.

Providing strong leadership and vision to the technology team, guiding the development and implementation of technology initiatives, as well as fostering a culture of continuous learning, collaboration and a high performing technical team.

Participating in technical reviews of design and architectural considerations

Consistently providing clear, commercial product positioning through effective partnering with the Senior Leadership Team and other Streams

Taking responsibility to ensure consistent adherence across products to TechnologyOne's product and project management methodology to enable crisp and focused decision-making to deliver on target and on schedule.

Proactively managing risk and opportunities by anticipating future customer, industry and

technological trends through collaboration with strategic partners.

Spearheading strategic thought leadership and proactively managing potential future scenarios and strategic challenges to maximise long term profitability and viability of TechnologyOne's offerings.

Demonstrated experience successfully developing and executing against product roadmaps to deliver highly commercial Software and SaaS solutions.

Expert understanding of product life cycle from product conception, qualification, market release, production through to discontinuance.

Proven successful experience in a senior leadership role in a medium ASX listed company with a strong track record of successful transformational leadership and influencing skills.

Deep technical knowledge and experience on native cloud technologies and platforms

Expert knowledge about TechnologyOne, industry groups, and the technical area of the program.

Executive level communication, negotiating and public speaking skills, with a proven ability to engage and influence stakeholders across all levels.

Extensive industry network of senior leaders across a range of mid to large enterprise customers in Australia and New Zealand.

Bachelor in related field, Masters degree preferred.

Competitive remuneration package

Industry leading employee share plan

Free gym membership in our onsite Health Lab

Additional 2.5 days of leave per year dedicated to volunteering at a charity of your choice

Free breakfast and coffee on-site

TechnologyOne is proud to be an Equal Opportunity Employer who values diversity and an inclusive workplace. We aim to recruit a diverse range of people with a diverse range of talents to help us to deliver on our mission to better our community. If you meet a number of the requirements (and not all), we encourage you to submit your application.

Who we are...TechnologyOne (ASX: TNE) is Australia's largest enterprise software company and one of Australia's top 100 ASX-listed companies, with locations across six countries. We provide a global SaaS ERP solution that transforms business and makes life simple for our customers. Our deeply integrated enterprise SaaS solution is available on any device, anywhere and anytime and is incredibly easy to use. Over 1,200 leading corporations, government agencies, local councils and universities are powered by our

software. For more than 36 years, we have been providing our customers enterprise software that evolves and adapts to new and emerging technologies, allowing them to focus on their business and not technology.
