Company: Peakline Pty Ltd

Location: Western Australia

Category: other-general

Our client HDD Solution is looking for a Heavy Diesel Mechanic. Responsible for the maintenance, repair / rebuild, and servicing of heavy diesel equipment and machinery in a fast paced, high intensity industry. This role requires a strong mechanical aptitude, attention to detail, technical expertise, and the ability to diagnose and troubleshoot complex issues. The Heavy Diesel Fitter will work closely with a team of fitters to ensure the efficient operation of heavy diesel equipment. Fitter Duties • Strip, clean and inspect components of surface and underground mining equipment. • Rebuild components in accordance with procedure guidelines. • Assist in rebuilds of surface and underground machines. • Assist in mechanical repairs, servicing, upgrading, routine maintenance, replacement, overhaul, and associated activities as required. • Manufacture (make) hydraulic hoses. • Repair hydraulic valves, pipes, accumulators, and cylinders. • Hose complete machines from schematics. • Hydraulic electrical fault finding via schematics. • Ensure adequate spare parts and replacement items are in stock as required. • Liaise with Supervisor to prioritize repairs to ensure minimum downtime and disruption. • Operate HDD Solutions mechanical workshop tools, portable/fixed equipment, and associated maintenance equipment in a safe, reliable, and useable condition. • Any other duties as required by HDD Solutions
