We currently have a great opportunity for a HVAC Technician to join a well-regarded, enthusiastic, and well-established contractor in the industry.

Join a really supportive team where you will be valued and respected for your contribution whilst also gaining the opportunity to develop and grow professionally.

What you'll be doing:

Provide service, maintenance, and repairs to various types of light commercial refrigeration and air conditioning equipment (some install required)

Commercial sites include, education, schools, aged care facilities, hospitals, retail and leisure providing you with a real variety and exposure of work. These all include the servicing of the central plant, chilled water, cold rooms, commercial refrigeration and VRV, VRF & some install work.

Benefits:

Up to \$52ph (depending on experience) plus OT

Vehicle provided with \$30 travel allowance.

Bonus Structure - between \$5-10k as part of your performance review

A positive team environment with regular social and outside of work events

Company uniform, phone, iPad and training provided

PPE and tools

We want to hear from you if you have:

Experience as a HVAC technician within the commercial maintenance industry

ARCTick licence, driver's licence, and white card

Current Cert III in Air Conditioning and Refrigeration

Restricted electrical license

Excellent communication skills with a strong customer focus

If you have a couple years' experience in the industry, this role will provide loads of scope to gain experience across a commercial Refrigeration and Aircon. Alternatively, if you are more senior the opportunity provides a great work environment where you will interact daily with clients ranging from big corporations to smaller business.

In the past 5 years we have been extremely humbled ~~placed~~ **placed over 16,000 people into meaningful employment** This equates to 21 lives enhanced every day!
