

Information Security Specialist

[Apply Now](#)

Company: The State Of Queensland

Location: Brisbane

Category: other-general

Are you looking for a challenge to protect Metro North Health's information assets from threats to their confidentiality, integrity, or availability? Do you have a strategic mindset and a proactive, pragmatic, and risk-based approach to information security? If so, then please join our team at Digital Metro North!

Our team are in search of a passionate and skilled Information Security Specialist to join our team until April 2025. The successful applicant will coordinate and develop the Information Security Management System within Digital Metro North, develop and maintain relationships with eHealth Queensland, internal, and external stakeholders to support Metro North Health's continuous improvement in compliance, risk and audit obligations, and safeguard Metro North Health's information assets.

Job duration Fixed term temporary full time up to 20 April 2025

Digital Metro North (DMN) works collaboratively with Metro North Health (MNH) clinical leads and end users to deliver the digital transformation strategy for Metro North Health. It will ultimately create an integrated digital hospital and healthcare environment across Metro North. In meeting this strategy significant capital works are being undertaken over the next five years that includes hospital construction/refurbishment and the implementation of ieMR Advanced solution across Metro North. Delivering this will require a dedicated team, with the capacity to work across initiatives and domains, with the knowledge, determination, skills and experience to deliver.

How to apply Please provide the following information to the panel to assess your suitability:

A brief letter (1-2 pages) telling us why you are interested in this role and how your skills and experience complement this role. (This should not be a restatement of your resume. It is your opportunity to tell us about yourself and your key knowledge and experience, how you meet the key accountabilities, challenges, required competencies and any other specific role requirements, and including what skills you'll bring to the role.) Your current CV or Resume, including the names and contact details of two (2) referees with a thorough knowledge of your competencies for this role. One of the referees should be your current or immediate past supervisor. (By providing the names and contact details of your referee/s you consent for these people to be contacted by the selection panel. If you do not wish for a referee to be contacted, please indicate this on your CV or Resume.) Key knowledge and experience

The ideal applicant will be able to demonstrate the following:

Demonstrated experience in the development and implementation of information security strategies, in a large, complex and geographically dispersed service delivery organisation. Demonstrated experience and knowledge of information security, digital information security principles, risk management, incident management and vulnerability management. Demonstrated highly developed written, interpersonal, presentation and consultation skills, with the demonstrated ability to negotiate, influence and maintain effective relationships with internal and external multidisciplinary stakeholders.
