Are you a seasoned professional with expertise in maintaining diverse IT infrastructures?

We are seeking a talented Infrastructure Support Specialist to join our clients team. As an integral member of the IT department, you will play a key role in maintaining and optimising our systems to ensure smooth operations and support our organisation's growth.

**Key Responsibilities:** Provide expert-level support and maintenance for Windows Server environments, ensuring high availability and reliability. Manage and troubleshoot VMware virtualization technologies, including vSphere and vCenter. Administer Active Directory services, including user and group management, Group Policy, and domain controller management. Oversee general networking and WAN technologies to ensure efficient and secure data transmission across our organisation. Utilize scripting languages, particularly PowerShell, to automate routine tasks and streamline processes. Implement and manage Microsoft Azure services, including Azure Virtual Machines, Azure Active Directory, and Azure Networking. **Experience:** Proficiency in Windows Server administration and troubleshooting. Strong knowledge of VMware virtualisation technologies. Experience managing and maintaining Active Directory environments. Solid understanding of general networking concepts and WAN technologies. Proficient in scripting languages, with a focus on PowerShell. Hands-on experience with Microsoft Azure services is highly desirable.

Excellent problem-solving skills and the ability to work independently and collaboratively in a fast-paced environment. Strong communication skills with the ability to interact effectively with stakeholders at all levels.
