Long-term career opportunity

Intermediate Mechanical Engineer - BUILDING SERVICES

We are looking for a skilled and motivated Mechanical Design Engineer to join a renowned Building Services engineering consultancy. The successful candidate should have a proven track record in working on various residential, commercial, hospital, and retail projects.

The Company

Join our client, a leading provider of specialized engineering consulting services that

combine the depth of a large multidisciplinary practice with the personalized customer care and attention to detail found in boutique operations.

Their primary focus is on nurturing strong relationships that not only meet but exceed clients' needs and business objectives. Upholding this commitment through a company culture and philosophy that inspires their dedicated professional team to consistently deliver outstanding results.

Staffed with experienced professionals who bring a wealth of industry knowledge to the table, they collectively possess rich skill sets that significantly enhances the value they provide to their clients' projects.

With a diverse portfolio spanning Government and Mission Critical Facilities to mention a few, they offer a wealth of opportunities to work on an array of exciting projects across various sectors.

We are eager to hear from Mechanical (HVAC) Design Engineers who wish to join our Sydney team and have a passion for advancing their career within the building services industry!

EXPERIENCE

Degree qualified in Mechanical Engineering

2 years local experience working within the Building Services sector as a **mechanical** engineer.
