technologies and UI/UX standards. Knowledge of cloud message APIs and push notifications. Experience of working in iOS Swift understanding of the full mobile development life cycle Should have been published iOS apps in the app stores. Knowledge code versioning tools like Git, Mercurial or SVN Knowledge of Cocoa Touch, as well as CocoaPods Familiarity with continuous integration. Knowledge of low-level C-based libraries is preferred History of successfully completed project Skilled in GUI programming and multithreaded applications convenient working with agile methodology and tools Why Join Us? Get a chance to contribute and get recognition from Day 1 The 3rd Saturday of every month will be a day-off. Every alternate Saturday will be knowledge sharing sessions among employees to help improve / grow the IT skills. A friendly, Supportive, Professional and achievement-oriented management team Education assistance Extra activities (birthday celebration, outdoor picnics, team lunch parties) Recreational activities (during break time) such as Board games, Video games etc. Work from home in case of any personal emergency. Every team member uses their own code editor of choice for writing code. All that matter is that the code that is written in them is top-notch. iTerm Coupled with OhMyZSH iTerm is the terminal on steroids. You can use a number of useful plugins and other features like autocomplete. Travis CI A continuous integration tool for all our open source project. We use it to run tests and check our code for coding standards violation. Semaphore CI Semaphore CI is used for building, testing and deploying our client code. PHPUnit De facto standard unit testing framework for PHP. Writing tests is crucial to write maintainable code. Docker Some apps are built using Docker images for easier deployment to various environments. In some cases, we also use it for easier local setup. VVV Varying Vagrant Vagrants is an open-source Vagrant configuration focused on WordPress development. VVV is ideal for developing themes and plugins as well as for contributing to WordPress core. PHP_CodeSniffer PHPStan PHP Static Analysis Tool – it focuses on finding errors in your code without actually running it. GitHub All of our work is on Github. Everything goes through pull requests and code reviews with your future team members. Slack We use Slack for work and for fun. It's our go-to tool for maintaining sanity both in office and remote. Handbook WordPress Handbook is a repository of the practices and processes we developed through the years of working with WordPress. What can you expect from us? We offer a number of benefits, high-quality tools, bad jokes, and a stimulating work environment. 01 We believe that honest two-way feedback is the foundation of growth. In our bi-weekly one-on-one talks and quarterly 360 reviews, we discuss what's good and what could be better. Our teams get to work on very

interesting projects for renowned brands and clients from a range of industries, some of which we can't namedrop due to NDAs. Contributing to open source Sharing is caring doesn't only apply to chocolate. Our way of giving back to the community is publishing open-source libraries and resources. Paid language courses Paid language courses help our employees master the English language, in addition to being fluent in their programming languages. Doing a career switch We don't have a sorting hat to tell you where you belong, but we will support your career switch from one job position to another. More info here.

Traveling on business Having clients all over the world means our employees sometimes have to travel to and work from beautiful locations. Gotta do what you gotta do. 02Health &Family life Stay in shape with a sponsored fitness membership of your choice. You never know when the elevator is going to go out of order. Sponsored health checks You know the old saying – the greatest wealth is health. Regular health checks are on us, getting your five-a-day in is on you.Hate waking up very early or fancy going for a run at the lunch break? Tailor your working hours to fit your schedule. Paid vacation for everyone Students or non-students, everybody deserves a carefree time-out to recharge their batteries. Bon voyage! 03Aroundthe office Free power-upsCar and bike parking Whether your ride comes on two wheels or four, don't let it get caught in the rain. We offer free parking for bicycles and subsidize car parking.

Working remotely We like people who go the extra mile, so we don't let miles and kilometers limit us. Office location? Anywhere. It's all about flexibility. Fun and games budget Every team gets a monthly budget to hang out and do fun stuff. While foodie teams love restaurant hopping, adrenaline seekers prefer to get locked up in escape rooms. Bring your dog to work If your four-legged friend doesn't eat MacBooks, let him tag along. Your colleagues will appreciate the stress relief.
