Java Developer

[Apply Now](#)

Company: Paxus - Technology + Digital Talent

Location: Australia

Category: other-general

We are seeking a talented Java Developer to join our client's dynamic team in developing and maintaining innovative software solutions that support Queensland's transportation infrastructure. As a Java Developer, you will have the opportunity to work on a wide range of projects aimed at improving the efficiency and effectiveness of our transportation systems.

The Java Developer will: * Work as part of an application software project team to develop and support Java built application systems (components and/or COTS interfaces) with the Java Toolset within a cloud-based environment (AWS).

* Work within the following spaces: Java, Springboot, Spring AWS, React, Gradle, and REST API.

* Timeseries database experience would be an advantage.

* Develop and document specifications and designs for Java application software.

* Work with guidance from the Lead Analyst, Enterprise Architect, and other technical specialists to analyse, design and assess technical solution designs and software development approaches.

* Undertake solution analysis, design, construction, unit testing, quality reviews, performance testing, and resolve problems with products running in the department's Java environment.

* Work with the Lead Analyst to effectively manage technical risks, issues, conflicts, and priorities to complete work with the required deadlines.

* Develop documentation and software in line with the department's technical standards and guidelines.

* Provide timely and accurate reporting of work progress as directed.

- * Provide technical Java skills transfer to the department's staff, including documentation of decisions made and the approaches taken.
- * Work independently without the need for continual or detailed technical and design guidance.
- * Undertake other activities as directed.

Highly desirable skills/experience in (though not limited to): * Springboot, Spring AWS, React, Gradle, and REST API.

- * Prior experience using a cloud environment would be an advantage.
- * Experience within large complex organisations, such as Qld Government, Government transport or similar organisations.
- * Other duties as required.
- * The role may have quarterly Key Performance Indicators to maintain.

Job number: 265386 To be considered for the role click the 'apply' button or for more information about this and other opportunities please contact Anna Reyes on + 617 3709 7456 or email and quote the above job reference number.

Paxus values diversity and welcomes applications from Indigenous Australians, people from diverse cultural and linguistic backgrounds and people living with a disability. If you require an adjustment to the recruitment process, including the application form in an alternate format, please contact me on the above contact details.
