Junior Mulesoft Developer

Apply Now

Company: Halokerja

Location: Brisbane

Category: other-general

Are you passionate about data integration , and helping companies develop a robust and scalable API architecture to ensure data (the lifeblood of any modern business!) is properly flowing across their various systems?

Are you driven to participate in challenging IT projects, and keen to quickly gain responsibilities and develop your career?

Within VISEO we are looking for a Junior MuleSoft Developer to work with our clients and contribute to the development of our Salesforce & MuleSoft practice. We are Positive Digital Makers and have been a Premium Salesforce partner in France and Asia Pacific Region for many years.

VISEO is positioned as a pure Salesforce player with its proven multi-cloud expertise which extends to MuleSoft.

Our Salesforce teams are placed in Singapore, Surabaya Indonesia , Australia and Philippines.

Do you want to be part of this dynamic and growing team? Your missions: In the context of omni-channel and CRM projects, you join a project team, in which you will have the following mission:

Participate in the collection of technical and functional needs with the architect, Learn to design solution on MuleSoft from your mentor, Develop new flows / APIs , maintain and evolve existing flows / APIs, Actively contribute to the maintenance and improvement of the MuleSoft platform, Analyze and resolve production incidents Apply MuleSoft best practices Write technical and operating documentation. Skills & Experience : Bachelor's

Degree or equivalent experience required. 1 to 3+ years of working experience in Java programming. Background and familiarity in End-to-End Software Development. Good understanding of Synchronous / Asynchronous communication patterns and problem-solving abilities with respect to Message Sequencing, Correlation and Queuing. Seeks and engages in continued learning of Agile practices and principles, ensuring that development technologies and best practices methodologies are adopted and applied by all team members. Demonstrates an understanding of software patterns, software modelling, secure programming principles, test-driven development or another unit testing methodology, and code standards compliance. Adept at producing fully responsive applications within a multitude of environments using modern up-to-date techniques, whilst still being able to support legacy systems and platforms. Ability to work with business and technology stakeholders to translate business problems into technical designs within an Agile environment.

Good to Have :

Experience in the IT Consulting industry. Knowledge of on-Premise Platform integration (e.g. Informatica, Talend , TIBCO) MuleSoft Certified Developer – Level 1 (Mule 4) MuleSoft Certified Developer – Integration and API Associate (Mule 3) Working knowledge of MuleSoft, SaaS technology, and SaaS business integrations and maintenance within complex international organizations. Basic and good experience in Mule administration, Configuration and tuning. Ability to identify, analyze and develop interfaces and integration flows using Mule ESB Anypoint platform including Mule Runtime, Connectors, Design Center and API Management. Experienced in Salesforce Connectors and API.

What does it mean to be a part of our MuleSoft family?

You will be part of the VISEO Salesforce Community: the proximity and human size of our organization will allow you to make your initiatives visible and easily discuss your projects. At the same time, the dynamism of the company and its perpetual growth will increase your opportunities for development.

You will benefit from close management by your mentor throughout your career at VISEO: Your mentor, an experienced consultant in your practice, will come regularly to discuss with you the challenges of your mission, take stock of your achievements every semester and discuss your future ambitions and the means to achieve them.

You will have multiple means to improve your skills and discover new fields: training, certifications, Brown Bag Lunches, workshops, meet-ups, meeting with experts, technical

seminars ...

VISEO SPIRIT : An e-learning learning program: Join our

Multi culture environment : Learn, engage and collaborate from teams coming from different places.

Support for well-being: Buddy and mentorship Program
