About the role

Reporting directly to the Factory Manager, Mackay Sugar is in the process of recruiting a **Maintenance Manager** With accountabilities in relation to utilisation of labour, assets, and maintenance management, we are looking to partner with individuals who can provide engineering to support our Maintenance and Production teams, to help achieve and drive, our businesses short and long-term production targets, while maximizing plant availability to achieve safe, operational efficiencies.

About you

As an integral part of the site leadership team, your strong background in contributing to maintenance best practice initiatives, will set you up for success when commencing at Mackay Sugar.

As a minimum you will hold or be progressing towards holding:

Engineering degree and / or substantial heavy industry experience

Minimum of 5 years' experience in a senior maintenance role leading and managing medium to large diverse workforces

Experience in and knowledge of the raw sugar manufacturing process well regarded but not essential

Demonstrated Experience in and knowledge of budgeting and cost control systems and processes

Computer literacy in Microsoft Applications and Maintenance Management systems including Microsoft Office Suite and ERP Applications (SAP).

Strong Demonstrated WHS & E knowledge.

Other duties and responsibilities include:

Active leadership and promotion of workplace health, safety and environmental processes and culture at Mackay Sugar to identify hazards, manage risks and prevent unsafe events.

Effective training and development of maintenance team personnel in line with Mackay Sugar values and best practice maintenance techniques.

Ensure effective leadership and management of maintenance contractors.

Set sustainable maintenance budgets and develop operational improvement strategies that continually reduce maintenance costs.

Ensure effective management of shutdowns and management of various projects simultaneously to achieve safety, quality, costs, and timing outcomes.

Continuous improvement in Factory reliability.
