Calling all MuleSoft Integration Specialists to embark on a new journey within our MuleSoft team as a MuleSoft Architect or Senior Developer !!! Come join one of the largest MuleSoft teams in Australia and the most awarded MuleSoft practice in APAC. This opportunity is open in Melbourne VIC. Take your current data integration skills to the next level on the current market leading cloud and hybrid API integration platform MuleSoft. We are looking for people with MuleSoft experience, a strong engineering background and DevOps and Platform automation experience. This is your opportunity now!! Capgemini has been an approved MuleSoft integration partner since 2015. Our close collaboration has led to many joint successes. Together, MuleSoft and Capgemini deliver an on-premises, cloud and hybrid integration platform based on open-source API connectivity. Capgemini regularly garners praise for its MuleSoft and integration capabilities. Recent accolades include: 2023 MuleSoft ANZ Partner of the Year 2023 MuleSoft Asia Partner of the Year 2023 MuleSoft JAPAC Partner of the Year 2023 MuleSoft Global Practice Development Partner of the Year 2023 MuleSoft JAPAC Practice Development Partner of the Year (7 years in a row) Let's talk about the team: Our dedicated MuleSoft integration team partner with businesses to assist at any stage of the digital transformation journey. From conception to delivery, we have a proven track record of architecting and successfully delivering enterprise MuleSoft integration solutions at scale. Our delivery excellence is recognised, positioning us as the MuleSoft Partner of choice in the APAC region. We are a MuleSoft global strategic partner, one of the largest MuleSoft partners in Australia and a leader in the Gartner magic quadrant for Cloud Integration and API Lifecycle management. Within our MuleSoft team, we are continually driving customer

value by leveraging the power of MuleSoft's Anypoint Platform, one of the world's leading digital integration platforms. Our focus areas are: Strategy and Architecture, Platform and Solution Design, Enterprise Integration and Delivery across the entire MuleSoft Platform and lifecycle. Let's talk about the role and responsibilities: As a MuleSoft Architect or Senior Developer, you'll work alongside a team of like-minded individuals within the MuleSoft community and partner closely with our clients on a wide variety of collaborative and innovative engagements. You'll be: Utilising your core consulting and integration specialist skills to offer technical knowledge and implementation experience with on MuleSoft and other full stack solutions. Providing architectural and delivery oversight ensuring architectural best practice in the delivery of services Delivering customer satisfaction through Lead Architect and Delivery Lead roles ensuring consistent use of methodologies with timely and effective delivery execution Working with the development team in analysing, designing, coding and unit testing solutions. Setting up and executing DevOps tooling and processes, containers for continuous integration Providing thought leadership, innovative ideas and domain experience to our end-customers Collaborating with enterprise architects, IT program managers and technical teams to build new and enhance existing business applications Contributing to our practices reference architecture, integration patterns and industry point-of-views Work with many complimentary software platforms as part of end-to-end solutions including event driven architecture, security, logging & monitoring, analytics platforms and data lakes Providing Quality and Control Assurance checks for client engagements Constantly self-developing and learning, obtaining various certifications and have access to a large amount of Capgemini's internal training courses Working alongside a team of talented technical data integration people, knowledge sharing and supporting each other to help each other develop your expertise in MuleSoft Let's talk about your qualifications and experience: What we're looking for in MuleSoft Architect or Senior Developer would be your: 4+ years' experience in Data Integration/ API / Middleware products Strong engineering background and knowledge of the cloud eco system preferred. Project/ Architect Lead or demonstrable technical delivery experience across Integration/ Middleware projects DevOps and platform automation experience including use of DevOps tools such as GitHub, Azure DevOps, Jenkins. Demonstrable enterprise scale full lifecycle integration implementations Architectural understanding and experience with disciplines including Integration, APIs, event driven architecture & Cloud Computing Demonstrated understanding of underlying client business problems and the ability to develop Cloud technology-enabled solutions that addresses

their needs Ability to work well and communicate under pressure Excellent interpersonal, presentation, and written and verbal communication skills Strong organisational, multi-tasking, and time-management skills About Capgemini At Capgemini, we are more than just a business, we are a diverse global collective of strategic and technological experts who are passionate about finding ways technology can help our clients, our people and our communities get the future they want. Our people are the key to making this vision a reality, which is why we have been recognised by the Australian Workplace Equality Index as LGTBQ+ 'Employer of the Year' and 'Inclusion of Trans and Gender Diverse Employees' for the past two years. We believe in creating a safe, flexible, and inclusive culture where everyone can bring their authentic selves to work, contributing to our inclusive culture and truly belong, and our staff-led community groups are a testament to this commitment. We are committed to being active allies for everyone. We believe by combining the power of the latest technology with our human energy, we can drive sustainable thinking into our operations and the work we do with clients. Its why we are committing to becoming a carbon neutral business by 2025 and net zero by 2030. Empower yourself with the knowledge and skills you need to succeed with our access to premier learning platforms, sought-after certifications and boundless development opportunities. You'll be encouraged to gain at least 40 hours of training each year. For over 50 years our values and ethics have been at heart of our identity. From our approach to ethics to the way we interact with one another, honesty, boldness, trust, freedom, team spirit, modesty, and fun guide and inspire all we do and have led to us being recognised as one of the World's Most Ethical Companies by the Ethisphere Institute 10 years in a row. Our Commitment to Diversity & Inclusion Don't meet every single requirement for this role? Studies have shown women and people from diverse minority backgrounds are less likely to apply to jobs unless they meet every single requirement. At Capgemini, we are dedicated to building a diverse, inclusive, and authentic workplace, so if you're excited about this role but your experience doesn't align perfectly, we encourage you to apply and tell us what you can bring to the role. We understand for some people, a standard hiring processes can come with challenges. If you are living with a disability, are gender diverse or neurodivergent and we can provide support with access requirements or by making an adjustment to our hiring process, please contact us at ****** Information Security and Compliance Capgemini Australia has developed and manages, process orientated Management Systems compliant to the requirements of ISO9001, ISO27001 and ISO14001. We are committed to delivering secure

solutions and services through state-of-the-art processes and continual improvement frameworks in line with industry best practices as well as contractual, statutory, and regulatory requirements. We are a 2023 Circle Back Initiative Employer and commit to responding to every applicant. Please note unsolicited resumes from employment agencies or other third parties will not be considered. Please note unsolicited resumes from employment agencies or other third parties will not be considered. #LI-AM2
