

## Mulesoft Integration Team Lead

[Apply Now](#)

Company: DFP Recruitment

Location: Queensland

Category: other-general

DFP Recruitment is partnering with a Federal Government organisation who are at the inception stage of a very large transformation. Due to this continued growth, they are now looking to bring onboard a MuleSoft Integration Team Lead. This is an initial 1-year contract offering an open daily rate across a 7.5-hour day + Superannuation based on your previous and current experience. This position can be based in either Richmond or Geelong and is a hybrid role. Our client seeks a MuleSoft Integration Team Lead to join & lead the Integration team within the Scheme Digital Platforms branch. The team is responsible for ensuring the organisations ICT development program, as shaped by their strategic plan, provides access to data and functions from various sources in a seamless and reliable manner. The role and responsibilities will include:

- Lead a team of MuleSoft engineers, assigning work activities and providing guidance and support as required.
- Apply MuleSoft 4 experience to develop experience, process and system API assets.
- Collaborate with Architects, Integration Analysts, Designers, BA's and Testers to interpret the end-to-end integration design and technical specifications to build the integration solution.
- Help formulate and support quality integration standards.
- Adhere to the data replication approach for the replication, transformation, archiving and migration of data.
- Contribute to the specification preparation of data integration, both content and structure, for end to-end replication from source to target systems.
- Contribute to the analysis and specification of data integrations, both content and structure end to-end.
- Maintain the efficient operation of the end-to-end data integration process, including scheduling, error handling, and daily maintenance and troubleshooting.
- Monitor relevant systems and associated integration

performance and conduct tuning activities to maintain the optimum performance. • Develop reusable assets and components in line with the standards and patterns applied across the whole project. • Execute configuration testing and documentation and support the SIT effort. • Facilitate training and knowledge transfer to support the service transition to the BAU support team. • Adhere to the incremental delivery approach to enable the project to deliver early and continuously. Our client is looking for the successful candidate to ideally have: • Evidence of at least 5 years' experience in integration development. • Proven experience in leading a team of MuleSoft Engineers/Developers. • Proven experience integrating MuleSoft 4 platform in a complex ICT environment. • Ability to develop MuleSoft, CI/CD and Agile services within a DevOps environment. • Proven experience in designing and delivering REST based services including design of APIs. • Proven experience working in a multi-disciplinary team, building rapport and managing stakeholder expectation. If you would like to be considered for this dynamic, long-term contract opportunity, please send your resume in Word Format clicking on the Apply Now button. Or for a confidential phone chat, please call Katrina Thorburn at DFP Recruitment on 0407 862279. DFP welcomes applications from Aboriginal and Torres Strait Islander people, people with diverse cultural and linguistic backgrounds and people with disability. In addition, DFP will provide reasonable adjustments for individuals with disability throughout the recruitment process. If you identify as a person with disability and require adjustments to the application, recruitment, selection and/or assessment process, please advise via \*\*\*\*\* or 1300 337 000 and indicate your preferred method of communication (email, phone, text) so we can keep in touch and meet your accessibility needs. #J-18808-Ljbfrr
