

Networks & Systems Administration - Green Light

[Apply Now](#)

Company: Green Light

Location: Australia

Category: computer-and-mathematical

Initial 3-6 month contract engagement

Cisco R&S, Firewalls & Cloud (Azure/AWS)

Sydney Offices

About the company:

Green Light is one of Australia's most successful and fastest growing IT services businesses. We offer a wide range of IT services in Security, infrastructure and Systems Integration to a diverse customer base throughout Australia, New Zealand, SE Asia and Europe.

About the engagement:

Green Light are delivering a project for an industry leading organisation and have a requirement for a talented **Network Engineer** to join our project delivery team.

Working for one of our delivery partners this system integrator is directly engaged with the end clients and working onsite at Sydney offices. The role is to join a team of technical professionals doing design and engineering for an enterprise end customer.

Responsibilities:

Working as an SME for Cisco datacentre technologies across Nexus devices

Experience in designing and implementing enterprise networks

LAN/WAN & managed network environments

Good written, communication, interpersonal and problem-solving skills

Experience in writing designs and implantation plans

Managing support cases to ensure issues are recorded, tracked, resolved, and follow ups are done in a timely manner.

Requirements:

5+ years' experience working in a similar capacity as a Network Engineer

Experience working in large datacentres and/or enterprise environments

Working Knowledge of IP technologies from data communication, MPLS, BGP, and VPN to specific telephony knowledge of SIP protocol, trunking, and call routing;

Good experience with Fortinet and Checkpoint firewalls & wireless technologies (WLCs & Meraki)

Knowledge of cloud-based technologies - Azure, AWS etc.

Understanding of F5 (LTM, GTM, ASM), Cisco ASA would be advantageous.

Minimum CCNP Certified. CCIE is preferred or equivalent

Culture:

Innovative and continually improving cloud-based environment which encourages technical improvement and diversity

Large enterprise end customer

Collaborative work environment

Benefits:

Initial short term engagement with likelihood of extension or conversion to permanent

Diverse technical stack, with an opportunity to develop agnostic experience across cloud-based technologies

Attractive working environment – emphasis on broadening experience across multiple

technologies and end customers
