Job Description

Continuous business transformation with technology is essential for organisations seeking to grow, increase efficiencies and remain relevant amid times of innovation and change. Our Technology Implementation team work closely with organisations to enhance the potential of their technology through the analysis, assessment, and implementation of proven technology solutions. Successful transformation is more than embedding new technology into a business. It requires deep industry insight, functional expertise and technology know-how that underpins an organisation's strategic goals.

Your Opportunity

Forming part of the KPMG Oracle Cloud ERP team, you will play a key role of end to end project delivery lifecycle from initiation, to go-live, warranty, and support across multiple clients from a wide range of industries, by:

Working closely with the client, to understand, analyse and document their requirements and derive innovative solutions.

Leading workshops that enable the customer to understand the benefits and opportunities of the technology and how it can benefit the business, aligning to KPMG leading practices and cloud adoption.

Providing clear and concise configuration and other solution documentation (e.g. writing Functional Specifications).

Developing and expand own knowledge of Oracle Cloud and related applications through active self-learning, formal training and contribution to forums.

Assisting with presales activities and provide support, where required for the preparation of proposals and tenders.

Configuring Oracle Fusion Cloud ERP products, approvals and workflows, design and configure security roles, BI & OTBI reports, value sets, design studio and personalization.

How are you Extraordinary?

You are passionate about the importance of fantastic communication to share ideas, inspire, and create change. You are able to digest, distil, and communicate complex concepts in both written and verbal forms.

You get things done! You're proactive, results driven, and enjoy bringing your strengths to a multidisciplinary and impactful team.

You love being part of a collaborative and multidisciplinary team and building strong relationships both internally and externally.

Your Experience

At KPMG, we believe diversity of thought, background and unique experience strengthens relationships and delivers meaningful benefits to our people, our clients and communities.

To be considered for this opportunity, your qualifications, skills & experience could include:

A strong interest in consulting and Oracle Cloud related products with a drive to keep up to date with new functional or legislative updates regarding these topics.

Experience in implementing, configuring or supporting at least four of the following Oracle Fusion ERP Cloud modules: General Ledger, Payables, Receivables, Asset Management, Payments & Collections, Cash and Expense Management, Project Portfolio Management, Procurement.

A sound understanding of finance processes and practices and a demonstrated ability to interpret these into functional requirements.

Recent implementation experience of an Oracle ERP Solution in a hands-on configuration role or as a business lead.

Technical expertise in approvals and workflow configuration, designing and configuring Security Roles, BI & OTBI Reports, Value Sets, Design Studio and Personalization.
