Company: Arup

Location: Brisbane

Category: other-general

Do you want to make a positive impact on the world? Sustainable development is at the heart of everything we do. Seventy-five years ago, we created a home for creative thinkers seeking to solve the world's biggest challenges. Today, a collective of 16,000+ Arupians gather across the globe from 140 different countries to build a sustainable future. We strive to create an inclusive environment and give everyone a voice. Diversity drives innovation in our projects and offers empathy to the communities we serve. We welcome and encourage applications from people living with disability and provide workplace adjustments. At Arup, you'll do more than work — you'll shape a better world. About this role With exciting major project opportunities locally and the growth of our broader business regionally, now is an ideal time to join our team in Brisbane! Through consultation from an early stage in the project delivery this role covers the full spectrum of pavement design services for infrastructure projects. This is a permanent, full-time opportunity based in Brisbane and remuneration is AUD \$94,000 per year including superannuation. What will I do? ·

Communicate with the Client and the Project Engineer to understand the project requirements; · Carry out research and investigations to develop a clear understanding of ground conditions at the project site for the pavement design; · Plan and specify site investigations and laboratory testing programmes where required; · Liaise with Arup engineers, Clients and Project Engineers to develop project specific solutions; · Prepare detailed pavement documentation; and · Assist the Pavement leadership team in development of client relationships; training and mentoring of team members, and fostering of strong working relationships across Arup. What will I bring? · Ability to design and

deliver pavement engineering solutions on major and/or complex projects demonstrating a working knowledge of industry standard software for pavement design. • Recognised relevant tertiary qualification in Civil Engineering - preferably have completed or be working towards additional Pavement Engineering and/or Masters qualifications. • Working knowledge of industry standard software for pavement design preferred including CIRCLY, Rubicon, Elmod, FAARFIELD. • Strong technical skills including a passion to assist with our digital transformation and a drive towards producing sustainable designs. • 3-5 years' experience in pavement design and construction Our firm Dedicated to sustainable development, the firm is a collective of 16,000 designers, advisors and experts working across 140 countries. Founded to be both humane and excellent, we collaborate with our clients and partners using imagination, technology and rigour to shape a better world. We create spaces where everyone feels safe, seen and included and able to perform at their best. We take an approach to flexible working that supports the diversity and well-being of our members. Are you ready to shape a better world? Our open roles are waiting for you on the Arup careers page. If you like what you see here, apply today. Arup does not accept unsolicited resumes from recruiters or employment agencies. #LI-JW1 #LI-HYBRID
