

Principal Consultant - Logistics Engineering

[Apply Now](#)

Company: QinetiQ

Location: Adelaide

Category: business-and-financial-operations

QinetiQ is a people first, principles based company, which prides itself on bringing talented individuals together to solve a problem. We foster innovation, curiosity and support an inspirational journey.

Working within an integrated team, the **Principal Consultant – Logistics Engineering** , will undertake Logistics Engineering support tasks to assist in the establishment of the engineering and maintenance support systems for a new air platform to be introduced into service with the Airforce.

Tasks may include:

Review of Interactive Electronic Technical Manuals and other foreign-sourced data, including the establishment of AAPs

Establishment of a publication management system

Review of Specialist and Common Support & Test equipment requirements, provisioning requirements and introduction to service activities (including service release)

Procurement of hand tools and the establishment of a tool management system

General Technical Assessor-related work

Other logistics engineering tasks, as required

As our preferred candidate will possess experience in the following;

An understanding of the DASR and CAM Services

Experience as a Technical Assessor

Previous CASG SPO and/or Air Force Flying Squadron experience

The location of this role is Adelaide

Whilst applications must be made online, confidential enquiries are welcome and may be directed to Denise Cole – Senior Talent Acquisition Business Partner via email;
