

Principal Instrumentation & Controls Designer

[Apply Now](#)

Company: Wood Plc

Location: Perth

Category: other-general

Wood is recruiting for a Principal Instrument Designer to join our team in Perth, Western Australia as part of its Operations APAC West business.

Wood delivers brownfields engineering, procurement, construction, optimisation and technical services to the oil and gas sector and enjoys long-term partnerships with some of the region's most prominent producers, actively supporting operations in Western Australia and the Northern Territory.

Wood is recruiting for a Principal Instrument Designer to join our team in Perth, Western Australia as part of its Operations APAC West business

You must be an Australian citizen or currently hold Permanent Residency (PR) and able to work lawfully in Australia without company sponsorship.

Suitably qualified in Instrument & Electrical Design Engineering from a recognised institution, ideally you will have a minimum of 12+ years of proven experience in the Oil & Gas Brownfields Engineering / EPCM sector.

In addition, you will have:

Relevant Certificate or suitably qualified by industry experience

Experience in either SPI or SPEL, both is advantageous

Experience in E3D and/or Navisworks Simulator is advantageous

An ability to interpret and translate engineering concepts into practical designs

Professional demeanour and interpersonal skills

An ability to both lead and work collaboratively in a team environment

Open to spend time away from office location as and when operation requires

Excellent communication skills (both written and verbal)

Excellent analytical and numerical skills

A solutions mindset and able to manage varying tasks with often changing and competing priorities

It takes a diverse and inclusive community of inquisitive minds to unlock tomorrow's solutions to the world's most critical challenges. Wood encourages Australian Aboriginal and Torres Strait Islander peoples and Women to apply.
