## Project Manager

[Apply Now](#)

Company: BMD Urban

Location: Australia

Category: other-general

### About the Company

At BMD, our business is our people. We pride ourselves on our family culture which sees our people build long-term careers with us. We are committed to hiring and developing the industry's best. Join our family where you are valued, supported and empowered to contribute, and where high performance and innovation is encouraged and rewarded.

BMD is a privately-owned national construction company operating a fully integrated civil infrastructure group with over 40 years' experience. Our BMD Urban division is the largest urban development contractor in Australia to deliver minor infrastructure upgrades, residential and commercial land development.

If you are a Project Manager and want to take a leading role on a number of exciting civil infrastructure and land development projects across South East Queensland, then join the BMD family. We're looking for applicants to share in our on-going growth and success and gain the skills and expertise to progress your careers within our family owned business.

### About the role

You will provide onsite engineering services and technical support to fearlessly strive towards safety, environmental, specification, design and contractual requirements across your portfolio of projects. With a robust pipeline of work ahead, you will have opportunities to build a long-term career with an employer who fosters a high performing, transparent and accountable culture.

Projects include;

Land development – Residential and Industrial Sub-divisions

Water / Sewer upgrades

Road infrastructure for local councils

Defence contracts

You will be a natural relationship builder with excellent communication skills and proven technical expertise to:

effectively deliver programming, staging and construction methodologies

achieve compliance with relevant legislation, regulations and standards

manage team outputs across profitability, efficiency and human relations

lead monthly assessments and forecasts of project's financial performance

build effective relationships with repeat clients and consultants

ensure a safe working environment.

**The successful candidate will be a self-starter with:**

a Bachelor's degree in Civil Engineering

over 10 years' experience in the civil construction industry with over two years' experience specifically in project management

experience in community infrastructure, earthworks, drainage and road construction

a collaborative management style to build a close, outcome focused team

strong commercial acumen, leadership and negotiation skills

stakeholder and client engagement experience.

**To succeed in this role, you will need**

10+ years' experience in the Civil Construction industry (desirable)

A mix of project and estimating experience is ideal

First principle estimating experience

Development of subcontractor work packages and review

Exposure to Expert Estimation is desirable
