

## Quality Manager

[Apply Now](#)

Company: Pacific Seeds Pty Ltd.

Location: Toowoomba

Category: other-general

Quality Assurance & Control (Manufacturing, Transport & Logistics) Established in Central Queensland in 1962, Pacific Seeds has partnered with farmers around Australia for over sixty years. Pacific Seeds is part of the global Advanta Seeds group and is currently one of their largest operating units globally. Through technology innovations, and close collaboration with Australian farmers, Pacific Seeds have grown to be Australia's leading broadacre cropping seed provider. The Position Reporting directly to the Managing Director, Pacific Seeds now seek a Quality Manager to effectively manage the Pacific Seeds Quality Control functions (seed quality assessment, genetic purity assessment and seed technology research) to ensure that information is available for product release decisions to be made in a timeframe which meets commercial requirements. The position will provide regular updates to the Managing Director on progress of key deadlines and initiatives as well work closely on all Australian Quality matters to ensure outcomes are aligned to global processes and policies. In addition, the role will work closely with other managers to provide support and guidance to achieve common goals as well as mentor and support team members to maximise personal performance. The Person To be successful in this busy but very rewarding position, you will possess the following background, key skills and attributes: Demonstrated experience across production agriculture ideally within the seed sector with exposure to seed analysis concepts and procedures Demonstrated ability to comprehend concepts of plant science and their application to a Quality Control testing program Be a self-starter with well-developed organisational skills and the ability to work independently Excellent communications skills, both written and verbal Strong commitment to providing excellent customer service Highly

motivated, detail focussed and flexible in approach An easy-going style with the confidence to deal with a wide range of stakeholders Have an open mind to alternative opinions Demonstrated experience across production agriculture ideally within the seed sector with exposure to seed analysis concepts and procedures Demonstrated ability to comprehend concepts of plant science and their application to a Quality Control testing program Be a self-starter with well-developed organisational skills and the ability to work independently Excellent communications skills, both written and verbal Strong commitment to providing excellent customer service Highly motivated, detail focussed and flexible in approach An easy-going style with the confidence to deal with a wide range of stakeholders Have an open mind to alternative opinions This is an outstanding career opportunity for an experienced Quality Manager to effectively manage the Pacific Seeds Quality Control functions. Along with domestic travel, some international travel to visit program partners may be required. To enquire please phone Mick Hay on 1300 380 701 or apply via [www.rimfireresources.com.au](http://www.rimfireresources.com.au) Report this job advert Don't provide your bank or credit card details when applying for jobs. #J-18808-Ljbffr
