Company: Capgemini

Location: Perth

Category: other-general

As a leading strategic partner to companies around the world, we have leveraged technology to enable business transformation for more than 50 years. We address the entire breadth of business needs, from strategy and design to managing operations. To do this, we draw on deep industry expertise and a command of the fast-evolving fields of cloud, data artificial intelligence, connectivity, software, digital engineering, and platforms. At Capgemini, we are driven by a shared purpose: unleashing human energy through technology for an inclusive and sustainable future. Capgemini. Get the future you want. Let's talk about the team: Our Insights and Data team helps our clients make better business decisions by transforming an ocean of data into streams of insight. Our clients are among Australia's top performing companies, and they choose to partner with Capgemini for a very good reason - our exceptional people. Due to continued growth within Capgemini's Insights & Data practice we intend to recruit a Data Engineer with relevant consulting and communication skills. If you are already working in a consultancy role or have excellent client-facing skills gained within large organizations, we would like to discuss our consultant opportunities with you. Let's talk about the role and responsibilities: 1. Minimum 10 to 15 years Experience in Analytics BW 4HANA SAP DataSphere 3. Native HANA - Should have experience of 3 to 4 years 4. Good exposure and understanding around Visualization Products Power BI, SAC, BO, Webi, AFO, SAP Data Services 5. Good Communication and Collaboration Skills 6. L2 Certified Architect is Preferred Let's talk about what's in it for you! We believe technology is about more than business transformation - it's also about building a more sustainable, inclusive future. This starts with our people, working with you to get the future you want.

We invite everyone to bring their whole selves to work, contributing to our inclusive culture and a safe place for our people to be themselves and truly belong. Through championing our staff-led community groups, we are committed to being active allies for everyone. We also aim to build an environment where you can thrive at work and at home. We champion remote working and are in the process of making 'truly flexible' working arrangements the day-to-day reality for our people. In addition, we strive to ensure your growth and learning experience is unique with access to leading learning platforms, external certifications, and opportunities to grow and learn the way you want. Finally, we offer opportunities to use your skills to help society address the impact of the digital and automation revolution, and we're ruthlessly focused on sustainability for our clients and our business - committing to becoming a net zero business by 2030. Don't meet every single requirement? Studies have shown that women and people from diverse minority backgrounds are less likely to apply to jobs unless they meet every single requirement. At Capgemini, we are dedicated to building a diverse, inclusive, and authentic workplace, so if you're excited about this role but your experience doesn't align perfectly, we encourage you to apply and tell us what you can bring to the role. Capgemini Australia has developed and manages, process orientated Management Systems compliant to the requirements of ISO9001, ISO27001 and ISO14001. We are committed to delivering secure solutions and services through state-of-the-art processes and continual improvement frameworks in line with industry best practices as well as contractual, statutory, and regulatory requirements. #GetTheFutureYouWant - Come join us, bring your whole self to work, create new possibilities for you, your customers and your community and help us to be Architects of Positive Futures. #LI-AR1
