

SAP Solution Architect

[Apply Now](#)

Company: Stockland

Location: Sydney

Category: computer-and-mathematical

Complex role that will give you exposure to multiple projects and executive teams

Make a valuable contribution to Australian communities

Flexibility at the core of our culture. An opportunity to balance work and life

We have an opportunity for a Solution Architect to join the Application Services team at our Sydney Office.

About the role

You will be responsible for driving the delivery and management of the Enterprise Applications platform and new technology solutions, with a key focus on SAP systems that enable business growth and support customer outcomes.

You will also be responsible for driving, developing, and maintaining the Enterprise applications architectural direction, road maps and methodologies and identifying and proactively managing risk areas, and committing to seeing issues through to complete resolution, by working across the teams.

If you have proven expertise in cross functional aspects of SAP S/4 HANA, ARIBA, SuccessFactors and other SAP systems including enterprise integrations leveraging middleware tools and platforms we would love to hear from you.

Key Responsibilities:

Maintain and own the solution architecture for the Enterprise Applications platform, with a focus on SAP, and contribute to solutions spanning a multidisciplinary team

Responsible for Solution Assurance with a focus on the end-to-end solution architecture and facilitate a team of IT domain specialists and business leads to drive resolution of project design issues

Manage and run the Design Review Forum (DRF)

Drive the Enterprise Applications Platform development, delivery, and maintenance for Stockland to improve sales, increase occupancy and enhance customer engagement

Identify opportunities for Stockland to leverage scale and take advantage of new industry practices
