Security Architect - Whizdom Recruitment

Apply Now

Company: Whizdom Recruitment

Location: Australia

Category: computer-and-mathematical

We have a backfill opportunity for a Security Architect to join our client’s team in Canberra. The work will include development and maintenance of a technology and security current state, target state and roadmap / intermediate architectures. This will be achieved by producing technical artefacts such as standards, patterns, policies, reference architectures, roadmaps, engineering, and configuration code, as well as providing advice, governance and assurance services.

Responsibilities:

Your responsibilities will include, but not limited to:

Developing ICT Security and Identity Credential and Access Management patterns based on ISM, NIST, SABSA, PSPF, Zero Trust and other industry cyber frameworks.

Governing projects technology implementation to conform to technology and security roadmaps.

Working with vendors to understand their technology roadmaps and how to best apply vendor technologies to create an optimal IT operating environment, including defining standards, policies, guidelines and procedures.

Designing operational efficiency into the technology architecture including best practice.

Investigating emerging technology and develop secure solutions for the our client's enterprise.

Building holistic views of our client's strategy, processes, information, and assets and apply this knowledge.

Location:

Canberra, ACT

Contract term:

Until 30 June 2024 with 1 x 12 month extension option

Security Requirements :

To be eligible for this role, you **must be an Australian Citizen**. Due to the work environment, our client has requested that all candidates are required to hold **current NV1 (NV2 preferred) Security Clearance.**

How to Apply:

Please upload your resume to apply. Please note you will need to complete selection criteria to complete this application process. We will be in touch with instructions for suitably skilled candidates.

Applications open until **5 April 2024**

Candidates will need to be willing to undergo pre-employment screening checks which may include, ID and work rights, security clearance verification and any other client requested checks.
