Company: Randstad

Location: Australia

Category: business-and-financial-operations

Australian Citizens only

Our Government client is looking for a talented IAM/IDAM Integration Engineer for a long term 12 month contract in Melbourne.

This position involves designing, implementing, and enhancing identity integration solutions to ensure smooth and secure access for external users within an Azure and AWS Cloud environment.

What you'll do:

- Lead the design, implementation, and enhancement of identity integration solutions for customer identity systems and platforms.

- Collaborate with stakeholders to collect integration requirements and convert them into effective technical solutions.

- Architect and configure identity integration components, ensuring compliance with security standards and regulatory requirements.

- Offer technical leadership and mentorship to junior integration engineers, supporting their professional development.

What you'll need:

- Extensive experience with Customer Identity and Access Management (CIAM) products like Auth0, Okta, ForgeRock, Ping, Akamai, or similar.

Proficiency in Kubernetes, Terraform, and CI/CD processes.

Experience in developing within Cloud Environments such as AWS, Azure, or Google Cloud.

Expertise in identity integration technologies and protocols like OAuth, SAML, OpenID Connect, and LDAP.

Familiarity with identity integration platforms and tools like MuleSoft, Okta, Azure AD B2C, and AWS Cognito.

Randstad Digital - M11

At Randstad Digital, we are passionate about providing equal employment opportunities and embracing diversity to the benefit of all. We actively encourage applications from any background.
