Senior and Intermediate Civil Engineers - NSW, VIC + QLD
Who are we? Immerge is a specialist recruitment firm, where we connect top talent with leading companies in the engineering sector. At Immerge, we are committed to helping companies find the right candidates who can bring technical expertise and industry-specific knowledge to their organizations.
Position: Senior + Intermediate Civil Engineers
Permanent + Initial 12 Month Contract / High Hourly Rate roles available
Our Client: Our client is a leading tier 1 consultancy, a world-leading management and technical consultancy, that operates across all sectors looking to increase their property and buildings teams nationally. We are committed to addressing the intricate challenges of the built environment, delivering innovative and sustainable solutions to create accessible, resilient, and livable communities.
The Role: Join our dynamic team as a Senior Civil or Civil Engineer within our renowned Property and Buildings group. This pivotal role offers you the opportunity to step into a leadership position, elevating both your skills and the esteemed reputation of our team. Collaborate with a diverse and talented group of professionals, contributing to iconic projects that shape future-ready outcomes, benefitting both our clients and communities.
As a Senior Civil or Civil Engineer in their team, you will:

- Cultivate ongoing communication and professional relationships with clients.
- Manage multiple projects concurrently, ensuring adherence to technical and commercial standards, time constraints, and cost budgets.
- Play a hands-on role in design management and site surveillance.
- Mentor, delegate, and supervise the work of junior engineers.

Collaborate with internal stakeholders in a multidisciplinary engineering setting.

Work on prestigious projects in the Health, Education, and Defence sectors, contributing to your technical and commercial leadership experience.

Ideal candidates will have:

Proven Australian experience in civil engineering within the Property and Building space.

Solid experience in civil engineering across multiple projects.

Successful management of multiple projects concurrently, with exposure to large or complex brownfield projects.

Experience in the Property and Building sector.

Proficiency in delivering multiple projects of varying scales and sectors (e.g., commercial, residential, industrial, land development, subdivisions, and infrastructure/roads).

Strong skills in client relationship management and project management, with a demonstrated ability to handle multiple projects concurrently.

Capability to lead, train, and mentor junior engineers in technical and project delivery aspects.

Strong leadership, teamwork, interpersonal, and communication skills (written and verbal).

Preferred experience and knowledge of drainage software.

Client Benefits:In addition to a challenging and fulfilling role, they offer a range of benefits, including flexible working hours and a hybrid work environment, a vibrant and inclusive culture with regular social and networking events, access to our Employee Assistance Program, corporate health and travel discounts, 12 weeks of parental leave, options for global mobility, purchased additional leave, and more.
Next Steps:Please click apply with your updated CV and reach out to Dom for a confidential conversation on this role and the Engineering market in general. dom@immerge.au
