Senior Civil Engineer

[Apply Now](#)

Company: Talent Solutions

Location: Perth

Category: other-general

Talent Solutions Australia is a well established engineering and technical recruitment consultancy partnering with a diverse portfolio of private sector and public sector clients supporting the delivery of engineering projects in Australia. Are you wanting to break away from the demanding world of the tier 1 design engineering consultancies to get a better work/life balance for you and your family, yet still work on landmark projects? Due to further expansion of our client's busy engineering team, we currently have openings for experienced Civil Engineers and Senior Civil Engineers to join this thriving business in Perth. Generous financial package between \$130k - \$180k (range depends on experience)! Company bonus scheme! Fantastic culture built around family values, career development, training and support! Solid, long-term pipeline of local and national engineering projects providing stability and promotional prospects! The Role Depending on your background, whether it's working on either local or national highways and roads projects, or local or national land development projects, you will have a solid foundation of engineering skills and experience to bring to the role supporting this highly successful team in their continued success in delivering landmark projects locally and interstate. Senior Engineers - you will benefit from the strong pipeline of work to support the further development of your career with opportunities to lead key projects and teams, or become a technical expert in the business. Junior to Experienced Engineers - you will have the opportunity to build on your foundation of skills under the wings and guidance of senior engineers and a cohesive leadership team that recognises that junior engineers can only develop through structured training and development opportunities and strong mentors. Candidate Criteria You

will possess a Bachelor Civil Engineering and between three (3) and seven (7) years experience in the following core areas: either highways, roads, transportation projects or land development projects design/modelling of either highways or minor roads, bulk earthworks, drainage systems intermediate to advanced 12D or Civil 3D skills unfortunately experience in working to Australian standards is essential due to the lack of time available to train candidates in local standards In addition you will have client facing skills and be able to work collaboratively in a high functioning team. Reap the Rewards In a market where there is an abundance of opportunities for Civil Engineers, these roles really stand out as unique due to the variety of interesting projects you will be involved in, the healthy workplace culture, cohesive and supportive leadership team that have a clear roadmap for the business, generous remuneration and benefits scheme, future directorship opportunities. Apply today!!!! Interviews being held shortly. Interstate candidates there may be relocation assistance provided. Your application will include the following questions: Which of the following statements best describes your right to work in Australia? How many years' experience do you have as a civil engineer? Have you completed a qualification in civil engineering? Do you have experience working on civil infrastructure projects? Report this job advert Don't provide your bank or credit card details when applying for jobs. #J-18808-Ljbffr
