### About the role

Our client, a large Government Agency, has embarked on a Cloud migration journey and is looking for Senior DevOps Engineers to join their Cloud DevOps Engineering team.

This is a large and exciting program of work which includes Cloud migration (mostly to AWS)

and Application optimization projects. Opportunity to work on latest techs and mentor more junior DevOps Engineers in that team.

Long term contract of 1-2 years, potentially 3 years - Projects will kick off in the new financial year **from July 2024**

**Required Skills and Qualifications:**

**MUST BE AN AUSTRALIAN CITIZEN**

Strong knowledge across **AWS Cloud** environments

Proven experience building **CI/CD pipelines** and building cloud infrastructure, including knowledge with multi/cross account deployments

Sound knowledge of Systems (Linux & Windows) and Networking technologies

Strong **Python, PowerShell and/or Bash scripting** skills

Proficient in CI/CD tools and technologies including **Octopus, Puppet, Git, or Azure DevOps**

Strong experience working with Kubernetes, Containers and **Infrastructure as Code (IaC) (Terraform, CloudFormation & ARM templates)**

Analyze trends in system performance, cost, capacity and reliability

Ability to contribute and lead IT projects and work collaboratively with other IT teams to implement new cloud technologies

Ability to guide and mentor more junior team members.

Relevant Industry certifications highly regarded (AWS, ITIL, DevOps)

If the timing could be a good fit for you to start in the new financial year (~ July) and you're interested, please apply now to go through selection and vetting process.
