Job description

CGC are working with one of Western Australia's largest single disciplined electrical consultancies, seeking a Senior Electrical Engineer to join their team.

With 18years of success, our client prides themselves on specialist knowledge and understanding within the building services industry solely focusing within the electrical, communications, security and vertical transportation industry.

The Role - Senior Electrical Engineer

As a Intermediate or Senior Electrical Engineer, you'll have the opportunity to work on a wide range of major projects spanning across all sectors. From commercial to residential, healthcare to education, no two days will be the same.

You'll be at the forefront of cutting-edge technology and sustainable design practices, shaping the future of building services.

Requirements/About you

Recognised relevant tertiary qualifications in Electrical Engineering or similar area

Minimum of 5 years of experience in electrical building services sector.

Strong technical skills and proficiency in electrical design software.

Excellent communication and interpersonal skills.

Ability to work well in a team environment and lead projects from conception to completion.

MUST be an Australian working rights

In return our client offers you

Join a team that celebrates diversity and fosters an inclusive environment.

Commitment to employee personal development to help you grow and develop in your career, with ample opportunities for advancement.

Onsite parking, otherwise close to public transport routes

Flexible work hours to suit your lifestyle/family (start and finish earlier) with one day Working from home

Work alongside leading Fellow engineers with a depth of experience and knowledge.

Social engagement through a variety of organised activities and team-building days.
