Full time -permanent position based in Brisbane CBD Flexible, supportive team environment & attractive salary on offer Growing ASX listed Multidiscipline Engineering business About Verbrec With over 860 dedicated team members operating out of locations across Australia and New Zealand, Verbrec is a leading mid-tier ASX listed company (ASX: VBC) providing exceptional engineering, operations and training services across the entire asset lifecycle, with a significant focus on growth into new and existing industries. We provide services to our clients across Australia, New Zealand, PNG and the Pacific, across the energy, infrastructure and mining sectors, to empower them to improve efficiency and capability. We take pride in our focus on safety, while driving a strong people-focused culture to make transformations toward a sustainable and smart future. About you Due to a growth in our workload, we are looking for a Senior Piping Designer to join our experienced team in Brisbane. This role offers an opportunity to provide valued piping design project support to Verbrec as part of ongoing works. Ideally, you will have experience in the areas of Oil & Gas, Mining, Infrastructure, and other heavy industries Key responsibilities of this position include: Deliver Piping design and drafting services that meet Verbrec's, the customer's and applicable statutory and regulatory requirements. Perform design and drafting assignments that meet project requirements on time and within budget. Perform Piping design and drafting services such as: Identify and report changes to project scope. Prepare engineering drawings and documentation. Check drawings and documents in accordance with Verbrec's checking procedures and participate in project reviews as required. Provide technical support and assistance within the Design Team and liaise with engineering teams. Communicate

effectively with the discipline team and project stakeholders. Identify issues and problems, develop appropriate solutions, and ask for assistance when required. About the role This position would suit Piping Designers with experience in the areas of mining and oil & gas greenfield projects with skills and experiences across: PDMS or E3D experience preferred but not essential MicroStation SS8, SmartPlant P&ID experience preferred but not essential Intergraph SmartPlant Review, Developing 3D models and converting them to ISO's, Preferably experiences with drawing pipe racks and similar structures. The new Verbrec brand represents our evolution and continued growth by leveraging emerging techniques and technologies for the benefit of our clients. Evolution, engineered. Our Vision - Meeting the future by engineering transformative solutions through full project and asset lifecycles. Our Promise to You - We believe in passionate and innovative people delivering our success. We take pride in seeing our people continually develop their career opportunities and access wonderful employee benefits. We offer our people engaging and challenging work, the opportunity for personal success and, a fun and friendly culture. We are an inclusive workplace and we believe in diversity and opportunity for all. *Aboriginal and Torres Strait Islander candidates are encouraged to apply*** Please note, a satisfactory National Criminal Check will be required prior to commencement of employment** 25 May 2023 Brisbane City Queensland, Australia Full Time Engineering Engineering Drafting #J-18808-Ljbffr
