Job Category Customer Success Job Details About Salesforce We're Salesforce, the Customer Company, inspiring the future of business with Al+ Data +CRM. Leading with our core values, we help companies across every industry blaze new trails and connect with customers in a whole new way. And, we empower you to be a Trailblazer, too — driving your performance and career growth, charting new paths, and improving the state of the world. If you believe in business as the greatest platform for change and in companies doing well and doing good – you've come to the right place. Salesforce Professional Services focuses on delivering strategic engagements that define transformational opportunities and articulate clear plans for execution of change programs. We rely on our team's expertise and specialisms to engage with executive-level customers to agree on specific business goals and actions to ignite the full value of Salesforce. Our approach considers people, process, and technology — and a successful engagement includes recommendations to the business for change to support deeper, more relevant use of the Salesforce platform. Salesforce Industries brings the most complete and innovative suite of industry-focused, customer-centric & omnichannel solutions. These industry-specific capabilities as out-of-the-box products with 3 fundamental layers: An extensive data model. A complete set of business processes and integrations. A full range of omnichannel

experiences and apps (including sales, marketing, service, enterprise product catalog, CPQ, contract management, order management and commerce solutions). Are you passionate about Customer Success and would you like to work at the forefront of Digital Innovation at one of the most exciting CRM Company? Role DescriptionOur team collaborates with our Customers and Partners during the project lifecycle to share their extensive knowledge of the Salesforce.com platform and product suite. Combined with their experience in technical architecture, enterprise integration, and business solution implementation, they directly drive towards the best possible solutions. They paint a solution vision, architect the system and provide guidance during the implementation. Based on seniority they are involved in the building of solutions (configuration and coding) and/or leading diverse teams of resources in delivery or in strategic aspects. Program Architects serve as strategic advisors and Salesforce product and platform guides to the company's largest enterprise customers. They typically engage at C-level and drive conversations with our customer's enterprise architects and business users equipped with standard methodologies for enterprise architecture functions such as security, performance, development process, and application governance. Your ImpactThrough our extended onboarding program of formal certifications, internal training, knowledge transfer, hands on experience and closely working with other Technical and Program Architects you will become a Salesforce Industries Authority at the forefront of our Architecture offerings, delivering outstanding customer success. To be successful in the role you: Ensure scalable and standard methodology solutions to meet and exceed customer needsGuide the evaluation of business and technical requirementsBuild relationships with key collaborators and team membersAct as lead architect for the overall engagement by coordinating and aligning work of multiple architects on the teamAlign with project and engagement managers to support planning and implementation in close collaboration with the customerReview and guide project vision and direction, implementation approach and key artefactsDirect early solution evaluation, including proactive management of issues and effective engagement with executives, the account team, engineering, and product managementDirect and mentor diverse teams, such as customers, partners, and colleagues in technical delivery aspects, as well as non-technical topics such as communication strategies or executive influenceFuel our internal growth by identifying, leading or contributing to internal initiatives, such as innovations, building up a strategic brand, and nurturing teammates' skills by sharing knowledge. Where required, support pre-sales activities to position Salesforce ServicesContribute to broader

goals by becoming a citizen philanthropist and give back to our communities by joining or leading volunteering activitiesBasic RequirementsPrior experience in the Public Sector/Health industry is an advantage. Experience with key areas of enterprise architecture including Cloud, Integration Technologies, Master Data Management. Ability to analyze, design, and optimize business processes via technology and integration Experience in guiding customers and project members in rationalizing and deploying emerging technology for business use casesWork independently and as part of a distributed team and a willingness to take ownership of problemsRapidly learn new technologies as well as strong presentation, communication and facilitation skillsExperience will be evaluated based on the core competencies for the role (e.g. extracurricular leadership roles, military experience, volunteer roles, work experience, etc.) Available to travel regionally and occasionally internationally depending on customer needsPreferred RequirementsA detailed understanding of Web Services, Data Modeling, Cybersecurity requirements and Enterprise application integration concepts, including experience with enterprise integration tools (ESBs and/or ETL tools), and common integration design patterns with enterprise systems (e.g. CMS, ERP, HRIS, DWH/DM)Ability to build and maintain key relationships with C-level / mid-level and key decision makersExperience of defining and delivering enterprise applications on the Salesforce Platform including coded solutionsSalesforce Industries and Salesforce Certifications Affiliated to industry forums such as TM Forum (SID, eTOM). TOGAF and Industry Architecture qualifications.
