Senior Software Engineer- Apac

Apply Now

Company: Zero Hash

Location: Perth

Category: other-general

About the RoleZero Hash is looking for a Senior Software Engineer to help architect and build new features, as well as scaling the gateway to Finance 2.0. We are a high performing team looking for an equally ambitious and driven teammate.The right candidate for this position is detail oriented, deeply technical, and driven. You are eager to learn new technologies and complex systems. You build resiliency and scalability into the platform at every step.If you're looking to have a massive impact in a high-growth startup in one of the most exciting markets in decades, you will find this role challenging and rewarding in equal measure.This fully remote role is open to candidates in any EMEA timezone.#LI-RemoteResponsibilitiesSupport the company's vital business by contributing to the design and development of software in an event-driven microservices environmentDevelop microservices in Golang and PythonWork with platform engineers to setup new servicesRespond to production issues and alertsWhen necessary, communicate directly with client technical teamsRequirements5+ years of experience, preferably in the FinTech spaceA humble and scrappy get-it-done mindset; you're resourceful and in your element going from 0 to 1Excellent problem solving skills - can troubleshoot complex systemsDeep Proficiency with at least one of Python and Golang and experience with the other.Understanding of SQL and database schema designComfort with ambiguity; the ability to independently lay out and test clear hypotheses and solve problems without well-defined directionExcellent verbal and written communication skillsPreferredBachelors in computer science or equivalent experienceExperience at a banking-as-a-service, brokerage-as a service, payment-as-a-service businessExperience with digital assetsBenefits

OfferedWe believe that the best way to succeed is by having a happy, motivated and healthy team. We offer the following benefits:Work equipmentEquity Ownership and Early ExerciseMaternity & Paternity LeaveEducational budget of $1000WFH stipend of $500WeWork All Access MembershipVisa SponsorshipAbout Zero HashZero Hash is a B2B embedded infrastructure platform that allows any platform to integrate digital assets natively into their own customer experience quickly and easily (a matter of API endpoints). We power neo-banks, broker-dealers, and payment groups to offer digital asset trading and custody, crypto-backed rewards and round-ups programs as well as yield through staking and DeFi and NFTs.Our thesis is very simple: every financial services firm will offer digital assets within the next 2 years and will do so through platforms such as Zero Hash. Zero Hash is defining the new FinTech vertical of digital-assets-as-a-service.Clients include MoneyLion, Wirex, Deserve, MoonPay, Tastytrade. Backed by Point72 Ventures, NYCA, Bain Capital, Tastytrade.The Zero Hash CultureAll Zero Hash employees are guided by the following characteristics and core principles:Independence/Ownership - An ability to work autonomously. Join Zero Hash, pitch ideas, and shape the work you do.Passion - We are innovating quickly and challenging the status quo. We want you to think big, be creative and make a difference every day.Collaborative - A good attitude and respect for others. We're teammates, not co-workers. Everything we do is a shared success and equally a shared failure - we talk in terms of we not me.Initiative - An ability and passion for learning and asking questions. We will champion you, challenge you and push you to achieve your best - and we expect you to do the same.Empathy - An ability to listen, respect, and understand your co-workers, customers, and everyone you interact with no matter how different they are to you.Adaptability - An ability to respond quickly. We are in a fast-paced industry and so we expect you to be creative when solving a new problem and comfortable under pressure.Transparency - We believe that transparency is critical to empowering everyone to make the best decisions, both the company to its people and vice versa.Integrity - Integrity creates trust. As both an organization collectively and as individuals, it is our most valuable asset.Follow usTwitterLinkedInYoutubeBlog#J-18808-Ljbffr
