Senior Software Engineer – C++

At our core, we are a collective of passionate individuals committed to excellence in trading. We thrive on collaboration and innovation, upholding the highest standards of integrity. Join our diverse community, where we value the unique contributions of each team member.

Role

Embark on a dynamic journey as a Senior Software Engineer within our renowned Software Development team. This pivotal role is centered around the Front Office Trading system, directly impacting our company's revenues and contributing to our competitive edge and expansion. As a key player, you will:

Actively participate in delivering technology projects using agile methodologies.

Support the design, implementation, modification, and tuning of our bespoke trading software stack.

Collaborate closely with trading teams to provide technical solutions to trading challenges.

Develop a profound understanding of the technology stack and its broader business applications.

We are seeking a skilled **Senior Software Engineer** with the following qualifications:

Strong knowledge and practical experience in C++.

Excellent critical thinking skills with a solution-oriented mindset.

Commitment to sound engineering principles.

Extensive expertise in code review, testing, and debugging principles.

Highly skilled in writing clean, readable, and testable code.

Experience in asynchronous and multi-threaded programming.

Confidence in navigating a production Linux environment.

Relevant industry experience in automated trading and market making.

Join a welcoming, inclusive, and collaborative environment that fosters fast, smart work. In our supportive and dress-down atmosphere, you can be yourself and achieve remarkable goals. Benefit from a flat structure that promotes engagement with senior leadership and offers ample career development opportunities. Enjoy a comprehensive benefits package, including:

Flexible leave and flexible working policies.

Healthcare allowance.

Comprehensive insurance benefits for life and salary continuance.

Employee well-being guidance and support.

Novated car leasing.

Opportunity to be involved in the rewarding work of our foundation.

We are a leading options market maker with a global trading footprint, shaping the future of the industry through 20 years of expertise. With offices in London, Amsterdam, Singapore, Chengdu, and Sydney, we provide best-in-class liquidity solutions across Equities, Fixed Income, Commodities, and FX derivatives markets. Our entrepreneurial, collaborative, and philanthropic culture sets us apart.
