Senior Software Engineer - Sydney

[Apply Now](#)

Company: Wisetech Global Limited

Location: Haymarket

Category: other-general

WiseTech Global is a leading innovator in the logistics software industry, known for our flagship product, CargoWise One. Our solutions integrate all aspects of logistics operations, streamlining the global supply chain and touching almost every imported and exported goods worldwide. We're pursuing a Senior Software Engineer to contribute to our mission of delivering seamless, end-to-end logistics execution software to over 17,000 logistics companies across 181 countries.

Our commitment to innovation is demonstrated through significant investment in product development with over AUD 1 billion invested in the last five years, leading to more than 5500 product enhancements to our CargoWise platform.

If you are a forward-thinking Senior Software Engineer who is passionate about building innovative solutions with tangible impact, we would love to hear from you. We offer a hybrid, flexible work environment with amazing workspace in Sydney (HQ), Melbourne, and Adelaide.

Key Responsibilities: Design and develop high-quality, scalable, and robust software solutions within the CargoWise platform.

Collaborate with cross-functional teams to drive innovation and incorporate emerging technologies.

Mentor junior engineers, conduct code reviews, and foster a technical excellence culture.

Lead the architecture and implementation of new features and services.

Contribute to continuous improvement initiatives, optimizing performance and user experience.

Our Development Team Working in continuous delivery and automated deployment environment, we ship 3500 upgrades a week. We practice Test Driven Development and place quality at the core of our engineering practice.

Problem-solving skills, curiosity, and passion are the key skills we look for in our Engineers, but for your interest, some of the technologies you can expect to work on will be:

.Net, C#, SQL Server

Continuous Delivery, using tools such as Git, Jenkins, PowerShell, etc.

Quality assurance processes and tools, including unit testing frameworks (MSTest, NUnit), automated testing tools (Selenium), static code analysis tools and performance testing toolkit.

We invest heavily in our people from day one and place our developers at the heart of our business. We have a range of benefits including:

Competitive remuneration package + equity

Development opportunities - Various learning platform subscriptions, mentorship, technical rotation program

Employee assistance program - 24/7 resources, support & information

Before you Apply From time to time, WiseTech Global may use external service providers to assist us with assessing applications, including background checks, on our behalf.

Accordingly, by applying for this role and providing your personal information to WiseTech Global, you consent to WiseTech Global providing this information to our external service providers who are required to treat such information with strict confidentiality in line with privacy and data protection laws and regulations.

We are a global team of passionate people enabling and empowering the supply chains of the world. #J-18808-Ljbfrr
