Developer – Autonomy

12 Month Contract

Tier One Mining Client

JOB PURPOSE STATEMENT

The Developer - Autonomy will work within a development team consisting of front-end, back-end and full-stack developers to develop effective and high performant user interfaces to support the autonomy program.

ATTRIBUTES REQUIRED FOR THE ROLE

Proven 3+ years' experience as a Software Developer or similar role.

Experience with behaviour driven methodology or test-driven methodology.

Experience with game development or related technologies.

Experience with the following technologies: C# .NET Core, WebGL.

Experience with microservice architectures and containerisation: Docker, Kubernetes.

Familiarity with Linux systems.

Substantial experience with the following technologies: ReactJS, TypeScript and CSS.

Familiarity with Agile development methodologies.

SKILLS

Ability to mock-up and create user interfaces (Desirable)

BSc in Computer Science, BEng in Software Engineering or similar (Desirable)

KEY ACCOUNTABILITIES FOR THE ROLE

1. Meet business requirements to build effective and high performant user interfaces.
2. Produce clean, efficient, safe, and quality code based on specifications.
3. Troubleshoot, debug, and upgrade the system in various environments.
4. Work within an agile environment to deliver against a backlog.
5. Contribute to continuous improvement through agile processes.
6. Create concise technical documentation.

Candidates required to have full working rights and candidates based in Western Australia are desirable.

Contact Rebecca Blake, Technology Recruitment Consultant at NES Fircroft, for further information on application process.
