Software Developer

Apply Now

Company: Verse Group

Location: South Australia

Category: other-general

Verse Group are working with a leading Logistics company to help add experienced software engineers to their fast-paced team.

With multiple positions available, you'll join on a long term 1 to 3-year fixed-term contract, completingproject work. Based outside of the CBD, you'll have access to parking and working from home flexibility.

The business operates a rail network that spans across WA and delivers products to all areas of the globe.

You'll be working with a modern .NET environment using Azure and Microservices - they are constantly pushing the boundaries of technology.

They don't use off the shelf products, you'll create bespoke web applications to solve business problems.

Your role:

Take concepts from initial design through to implementation.Develop bespoke applications to be used throughout the business.Collaborate with other developers to complete projects on time.Have a strong focus on Automation and Microservices architecture.

Why apply:

Long-term, secure role working with an industry leader.Work with varied departments including the infrastructure division.An opportunity for interstate travel and go on site.Work within a progressive technical environment.

You bring:

Commercial experience as a senior software developer.Azure exposure and DevOps skills.Microservices architecture background.Strong problem-solving skills and analytical ability.If you are looking for a long-term opportunity and advance your career to the next step - apply today!
