

Storage Engineer

[Apply Now](#)

Company: Whizdom Recruitment

Location: Australia

Category: computer-and-mathematical

Our Government client is looking for an experienced **Storage Engineer** (level 4) who will be responsible, under limited direction, for delivering enhancements and new capabilities across multiple security domains with their team. The role involves the provision of ICT Systems Administration (Storage and Backup) to enable the efficient sustainment of current infrastructure and design of future backup and storage solutions within a complex environment spanning multiple geographically separated data centres and remote offices.

Major Responsibilities:

Contribute to developing new capabilities within existing datacentre and distributed storage environments.

Takes responsibility for the development of upgraded data centre systems as part of a broader data centre architecture.

Produces detailed design, configuration, implementation and support documentation. Manages reviews of the benefits and value of other designs and integration challenges to recommend improvements.

Using storage management tools, diagnose and resolve system and environment problems. Document the analysis of problem patterns and performance trends. Establish capacity planning and management procedures.

Identify system interdependencies and liaise with other system stakeholders to resolve conflict and coordinate integrated solutions.

Establish and foster productive working relationships by working cohesively and flexibly with the developer team, the broader program team, key business partners and stakeholder groups.

Develop a schedule of work and report on progress.

Other Skills and Knowledge:

Demonstrated knowledge of storage architecture and topologies.

Demonstrated knowledge of current storage technologies and solutions in classified environments.

Location of work: Canberra ACT.

Contract Term: 12 months

SFIA level required: The Specified Person will be expected to demonstrate attributes of SFIA Level of Responsibility 4.

Security Requirements : A minimum Australian Government Security Vetting Agency (AGSVA) Top Secret Positive Vetting (TSPV) security clearance is required.

How to Apply Please upload your resume to apply. Please note you will need to complete selection criteria to complete this application process. Candidates will need to be willing to undergo pre-employment screening checks which may include, ID and work rights, security clearance verification and any other client requested checks. We will be in touch with instructions for suitably skilled candidates.

Applications open until **5:00pm on 30 April 2025** Salina on **0480 002 449** or **salinas@whizdom.com.au** for any further information.
